N B A Caveat has been filed and all persons are cautioned against infringements of the patent.

je5dtf J MARSHALL.

I see that Mr A. J LANGWORTHY cautions the public against purchasing my presses, as being copied from one of his manufacture.

No feature of my press is copied from his, and I stand ready to give bonds to any amount to indemnify any purchaser of mine from any interference from Mr L. Any observer of common sense can see that the presses are not alike in anything except the use of the joint lever, and *that* is too familiar to every one from boyhood, to sustain a charge of being copied. But I learn that Mr L now uses an iron plate to carry off the brick, as I suggested to him in presence of several gentlemen.

On the other hand, I caution all persons against purchasing his complicated machine, which has never been operated successfully, and his frequent failures have compelled me to enlarge my operations so that now my presses may be *ordered* at the M. L. M. Company's in Milwaukee as above, or of A P DICKEY at Racine, or at my office in Fond du Lac.

Whenever any six men, with Mr Langworthy's press, as now built, can turn out as many good brick in a given time as my *four* men can with my little $125 machine, I will give them $100 cash.

Hoping that by adopting my suggestions from time to time, Mr. L may be able so to improve his press as to give satisfaction and "put money in his purse,"

HOLLOW BRICK!!

NOTWITHSTANDING THE WINDY MANIFESTO of John Marshall the subscriber continues to make the only *practicable* machine for manufacturing Hollow Brick, and is now getting up single machines for those who want a cheaper article than the double. I will also make such machines as Marshal is getting up, *out of the same material* and finished in the same style, for $100, thus saving to the purchaser $25 than over his price. I am the more willing to do this, because I am persuaded, that after a few days' trial of a worthless article, designed to swindle the public, they will be ready to purchase one that will stand the test fully.

All persons are cautioned against purchasing of him, and are advised, if they will not be cautioned, to take the bonds of indemnity offered by *honest* John, or a day of wrath is surely coming for him and all who infringe upon my claims.

Mr John Marshall offers to present any man a hundred dollars who will make more blocks with my machine than with his. I have this to say: John Geary Marshall, that I will put up $100 against any equal amount, at any time, upon application, to be worked one hour, or one day, and the machine which does the most work take the money. No more braggadocio, Mr M., but let us see if you have any confidence in your statements.

I should not at this time notice the falsehood and conceit of long eared John G Marshall, but that other interests than mine are at stake, for the viper who could unblushingly attempt to "steal the livery of the Court of Heaven to serve the Devil in," (though happily defeated,) and thereby earned a contemptible notoriety, is totally beneath notice, except to correct misrepresentations, and put the public on their guard. INSURANCE OFFICES

WISCONSIN

Home Insurance Office,

No. 6 Kneeland's Block.

MILWAUKEE, WISCONSIN, MARCH 20, 1855

INSURANCE EFFECTED UPON DWELLING HOUSes, Stores and other Buildings, Household Furniture, Merchandise and other property, against

LOSS OR DAMAGE BY FIRE.

This is a new Company organized the 25th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks, but, to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the Insuring Public, has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual system in one Company.

This Company commenced business with a capital of $60,000, and have already issued upwards of 350 policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent men in the Stock plan of insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk, in Village, within a circle of 4 rods diameter which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited.

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, on your own of the same class, and all will be on an equal footing.

Experience has shown that two thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

Office in Martin's Block, Milwaukee.

Capital over $125,000—in Cash and Premium Notes

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of assessment. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last 4 years, this Company have issued 5000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

DR. J. B. MARCHISI'S CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females!

IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites — CHRONIC INFLAMMATION AND ULCERATION OF THE WOMB; INCIDENTAL HEMORRHAGE, or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c, with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying DR MARCHISI'S UTERINE CATHOLICON is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C ORRICK, M D,

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.

Truly Yours,
WM LAIRD HAZLETT, M D,
New Philadelphia, Ohio

July 8th, 1854

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D Y FOOTE, M D.,
Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use, together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observation.

N B A Caveat has been filed and all persons are cautioned against infringements of the patent.

ja6-dtf J MARSHALL.

I see that Mr A. J LANGWORTHY cautions the public against purchasing my presses, as being copied from one of his manufacture.

No feature of my press is copied from his, and I stand ready to give bonds to any amount to indemnify any purchaser of mine from any interference from Mr L. Any observer of common sense can see that the presses are not alike in anything except the use of the joint lever, and that is too familiar to every one from boyhood, to sustain a charge of being copied. But I learn that Mr L now uses an iron plate to carry off the brick, as I suggested to him in presence of several gentlemen.

On the other hand, I caution all persons against purchasing his complicated machine, which has never been operated successfully, and his frequent failures have compelled me to enlarge my operations so that now my presses may be ordered at the M. L. M. Works in Milwaukee as above, or of A P DICKEY at Racine, or at my office in Fond du Lac.

Whenever any six men, with Mr Langworthy's press, as now built, can turn out as many good bricks in a given time as my *four* men can with my little $125 machine, I will give them $100 cash.

Hoping that by adopting my suggestions from time to time, Mr. L may be able to improve his press so as to give satisfaction and put money in his purse,

HOLLOW BRICK!!

NOTWITHSTANDING THE WINDY MANIFESTO of John Marshall the subscriber continues to make the only practicable machine for manufacturing Hollow Brick, and is now getting up single machines for those who want a cheaper article than the double. I will also make such machines as Marshal is getting up, out of the same material and finished in the same style for $100, thus saving to the purchaser $25 than over his price. I am the more willing to do this, because I am persuaded, that after a few days' trial of a worthless article, designed to swindle the public, they will be ready to purchase one that will stand the test fully.

All persons are cautioned against purchasing of him, and are advised, if they will not be cautioned, to take the bonds of indemnity offered by honest John, for a day of wrath is surely coming for him and all who infringe upon my claims.

Mr John Marshall offers to present any man a hundred dollars who will make more blocks with my machine than with his. I have this to say to John Henry Marshall, that I will put up $100 against any equal amount, at any time, upon application, to be worked for one hour, or one day, and the machine which does the most work take the money. So no more braggadocio, Mr M., but let us see if you have any confidence in your statement.

I should not at this time notice the falsehood and conceit of long eared John G. Marshall, but that other interests than mine are at stake, for the viper who could unblushingly attempt to steal the livery of the Court of Heaven to serve the Devil in, (though happily defeated,) and thereby earned a contemptible notoriety, is totally beneath notice, except to correct misrepresentations, and put the public on their guard. Home Insurance Office,

No. 6 Kneeland's Block.

MILWAUKEE, WISCONSIN, MARCH 30, 1855

INSURANCE EFFECTED UPON DWELLING HOUSes, Stores and other Buildings, Household Furniture, Merchandise and other property, against

LOSS OR DAMAGE BY FIRE.

This is a new Company organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks. But, to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the insuring Public, has induced its Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual system in one Company.

This Company commenced business with a capital of $50,000, and have already issued upwards of 400 policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the West plan of insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, this company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $2000 upon any one risk, in Village, within a circle of 4 rods diameter, which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited.

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, on your own, of the same class, and all will be on an equal footing.

Experience has shown that two thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

Capital over $125,000—in Cash and Premium Notes

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for all assessment made to cover losses beyond the power of assets. Every person insured is a member of the Company and entitled to one vote. The cost of insurance does not exceed one third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last 4 years, this Company have issued 3000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. DR. J. B. MARCHISI'S

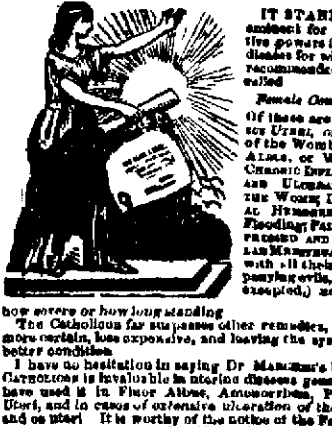
CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION AND ULCERATION OF THE WOMB; INCIDENTAL HEMORRHAGE, or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. MARCHISI'S UTERINE CATHOLICON is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C ORRICK, M D.,

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.

Truly Yours,
WM LAIRD HAZLETT, M D.,
July 8th, 1854 New Philadelphia, Ohio

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz. that of female weakness such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D Y FOOTE, M D.,
Syracuse N Y

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (*free*) containing ample proof, from the most respectable sources, of the beneficial results of its use, together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observation.

THE DAILY SENTINEL.

UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

Saturday Morning, June 30.

THE CONCERT TO-NIGHT!—We were all day yesterday sorry that we were requested to tell our readers that they could not hear PARODI and her party to-night, but just as we were going to press, we received a dispatch stating that they will positively be here. It is entirely unnecessary to urge our readers to attend, even if we had time to do so. The evening papers which publish the advertisement will please insert it this afternoon.

The Milwaukee & Mississippi R. R.

The Milwaukee and Mississippi Railroad Company in the month of March last, entered into a contract with Messrs Cook & Lockwood for the completion of their road from Madison, its present terminus, to Prairie du Chien, on the Mississippi River. We are to-day informed by the Directors that in all probability the entire line, ninety five miles in length, will be ready for the construction during the present year, leaving the bridging and laying the track for the year 1856 by the close of which the whole work by the terms of the contract, is to be completed. To meet engagements entered into by the contractors, and to provide the means to liquidate the $250,000 of bonds maturing in 1862 and 1863, the company have executed a mortgage upon the road to secure the payment of bonds to the amount of $2,500,000, payable in 1877—one half this amount is set apart for the completion and equipment of the road, and the other half is reserved to redeem the bonds maturing in 1862 and 1863.

In addition to the mortgage which under any circumstances, would be considered ample security for the payment of the $2,500,000, the company have created a sinking fund, and have set aside annually the sum of $50,000 for the ensuing twenty-two years, which is to be paid over to a Trustee in the city of New York, and to be by him invested in the repurchase of the bonds of the company if they can be purchased at par or under, and if they cannot be so purchased, then the same is to be invested in such other securities as the company may, from time to time determine.

This annual sum with the accumulated interest thereon, will be sufficient to pay all the bonds of the company secured by mortgage, at or before maturity, or in other words, at the expiration of twenty-two years the mortgage debt of the company, amounting to $2,500,000, *will be entirely paid.* This sinking fund is a part of the contract with the bond holders—it is one of the provisions and conditions of the mortgage, and consequently insures the prompt and certain payment of the annual sum of $50,000 into the sinking fund, and the faithful application of the same to the purposes intended by the Company. We congratulate the Directors upon their wisdom and sagacity in adopting this scheme, which cannot fail to have a beneficial effect upon the standing and reputation of their road.

It has been too much heretofore the custom of roads to issue their bonds without making any provision for their payment. The Milwaukee and Mississippi R. R. Co., have set an example worthy of imitation by other companies and which must eventually be adopted by all who have to rely mainly upon credit to build their roads. In times disastrous to the reputation and business of railroads, this company has maintained a high standing, its bonds have been a favorite investment with capitalists in this country and in Europe. This standing it has acquired by a prudent management of its business—by promptly meeting its engagements, and by the exercise of rigid economy in all its affairs. Its earnings have far exceeded the hopes of its most sanguine friends, and its losses from casualties have been less than those upon any other road running the same distance, and for the same length of time.

The system now adopted will raise still higher the character and standing of the road, enhance the value of its stock and bonds, and give renewed hope and confidence to its friends. We regard this road as now standing on a safe and solid basis, certain to accomplish the object of its projectors, in affording a profitable investment to its stockholders, and adding vastly to the wealth and population of Milwaukee and Wisconsin.

The earnings thus far for the present year, exceed those for the corresponding months of the last year by about 40 per cent. For the year they will be $[illegible],000, an increase of $150,000 over the earnings of the last year. We shall expect the earnings to reach *a million and a half of dollars* for the first year after the road shall have reached the Mississippi. Thus far the road has been wholly dependent upon a local business—extending but half across the State, and drawing but little business beyond the borders of Wisconsin. When completed to the Mississippi the road will furnish the shortest and cheapest route for freight and passengers to and from New York, for Wisconsin, Northern Iowa and Minnesota—a region of country which is now increasing faster in wealth and population than any other portion of the United States. As citizens of Wisconsin, we have good reason to feel proud of this Pioneer Road of our young State. We have stood by it through evil and through good report—never doubting its ultimate success, and look forward to the day as not far distant, when we can congratulate the citizens of Wisconsin on the completion of the Milwaukee and Mississippi Rail Road.

THE REPUBLICAN STATE CONVENTION.—The *Free Democrat* of last evening, in noticing an article from the Whitewater Gazette on the subject of the Republican State Convention, takes occasion to say:

It was the members of the Legislature and the Rep[illegible] present from all parts of the State to whom the subject was submitted for advice who recommended that two delegates from each Assembly District should compose the State Convention, and the Committee adopted that advice. It is not [illegible] then, but the Janesville *Gazette* and *Journal* who propose to set aside this basis.

The *Free Democrat* makes no such proposition.—If the Committee has adopted this basis, we can [illegible] the one suggested by ourselves, or that proposed by the Janesville *Gazette*, we see equally [illegible].

MILWAUKEE AND HORICON RAILROAD.—The people of Horicon are to vote, on the 14th proximo, upon the proposition to exchange $50,000 of their Town Bonds, for the bonds of the R. R. Company, by way of helping along the work.—We cannot doubt they will respond heartily and favorably to the Company's appeal for aid. Our city has set them a good example.

CORRECTION.—The article in yesterday's *Sentinel* concerning the man Mayberry, now awaiting trial at Janesville for the murder of Alger should have been credited to the Janesville *Standard*.

ATTORNEY GENERAL.—The Kenosha *Telegraph* makes favorable mention of BYRON PAINE, of this city as a suitable candidate for the office of Attorney General. He would do honor to the station and to the people who would elect him to office.

"[illegible]"—The *Wisconsin* of last evening, under the head of "*Voice of the People*" publishes a long letter from a Columbia Co. Democrat, predicting BARSTOW's defeat, should he be renominated, and urging [illegible] as the [illegible], and in the next column, under the head of "*Wisconsin politics!*" a letter from Madison to the *N Y Herald*, insisting that BARSTOW is by far the strongest man and that if he cannot be elected no democrat can. The *Wisconsin* leaves its readers with both the opinions, but prudently reserves its own.

Impressions of Minnesota—The Mania of Speculation—No place for Emigrants—Better and Cheaper Land in Wisconsin—Advantages of La Crosse.

DUBUQUE, Iowa, June 25th.

I wrote you last from St. Paul. I propose now to give you my impressions of Minnesota, and its inducements to the immigrant, in comparison with Wisconsin.

Southern Minnesota is represented by every one as an excellent agricultural region. It is undoubtedly equal to some of the best portions of Wisconsin. North of the head of Lake Pepin there is much more waste land, with many locations equal to the Southern part. But all the best, and indeed all the land now in market, lying between the Mississippi and St. Croix Rivers, has been seized upon by speculators, who hold it at an exorbitant price St. Paul itself is a city of speculation. Paper cities are more abundant in Minnesota now than they were in Wisconsin in '36. At every corner, and in every town, land agencies stare you in the face. The walls of every office, inside and out, are papered with these cities, and town plots. The walls and sidewalks everywhere ask attention to magnificent sites, and make most splendid promises.—The city is mad with this speculation, and the new comer is welcomed only as a new recruit, who has not yet been fleeced. I need not point out to those at all acquainted with the early times of Illinois or Wisconsin what all this will end in. Nor need I add that that region holds out no inducement to the farmer, or agriculturalist.

St. Paul has a beautiful and healthy location. But her inhabitants are doing all in their power to ruin her, and they will probably to a great extent succeed.

But does Minnesota hold out any inducement to the immigrant beyond Wisconsin? *Not one.* There is just as good land in Waushara, Outagamie, Richland, and other Wisconsin counties, which can be purchased at Government price ($1 25) as there is in the vicinity of St Paul, at $5 per acre. Besides this, Wisconsin has already good roads and thoroughfares leading to all these counties—she has commenced a system of Railroads which is doing much for our State. Minnesota has no Railroad nearer than this point.—Her population is yet too scattered, and too poor to do anything towards building them. The Mississippi River is her only outlet, and this closed at least one month longer above Lake Pepin than it is below. What inducement then can the immigrant have in going to Minnesota, at all comparable to that of settling in Wisconsin, or Iowa. I am not the only one who asks this question, as I have heard it repeated continually, and by persons not inhabitants of either State.

The truth is, Minnesota had been loudly cried up by these same interested Land Agents. By this constant system of puffing and noise, they have succeeded in creating something of a prejudice in her favor. But I am inclined to think that the rush of immigration is over.

These are my second impressions, received from observation and careful enquiry.

LA CROSSE, at which place I made a stoppage on my return, has an excellent location, and is one of the most lively and busy places I have seen. Though on the map it seems to be at the foot of a pretty general system of sloughs, yet it lies high and dry on a pretty, sandy prairie.—The soil here is not good, though I have no where seen so forward Indian Corn as on this prairie. The soil is warm and dry, just right for this grain, and specimens were growing there at least five feet high. All the valley above this prairie, extending through the northern part of La Crosse, Jackson and Monroe counties, is probably the best in western Wisconsin. Villages are rapidly springing up, and I think the census taken will show full tables from that region.

The advantages of La Crosse are its good landing; its location at the mouth of La Crosse and Black Rivers, uniting just at their mouth, and making this a lumber depot, its location below Lake Pepin, which freezes over earlier, and remains frozen longer, than the river below; and its being the terminus of the La Crosse and Mil. Rail Road. I think she has the finest prospects of being the largest place between this and St Paul.

Proscribing a Newspaper for Telling the Truth.

The *Jeffersonian*, a well conducted and excellent democratic paper published at the county seat of Jefferson county, has fallen under the ban of certain inconsiderate Germans residing in the town—the offence consisting in publishing the particulars of a disgraceful drunken row, which took place in that town on *Sunday*, the 10th inst., at Gruber's tavern; and in expressing the opinion that the sale of liquors on Sunday should be prohibited, and that such a man as Mayor Wood (of New York) was wanted in their midst. Hereupon the following proceedings were had and duly communicated to the editor of the *Jeffersonian*. We copy from that paper. The publication of the above, as is set forth, called for a mass meeting, which was held on *Sunday*, the 17th inst., which resulted in the following anathema being pronounced against him:

To the Editor of the Jeffersonian:

JEFFERSON, Wis.

At a mass meeting of the German citizens of the village of Jefferson and surrounding country held at the house of H. Gottfried, on the 17th day of June, 1855, the following resolution was *unanimously* adopted:

Resolved, That the article in the Jeffersonian of the 14th inst., headed *disgraceful drunken row*, indirectly casts reflections upon *innocent* citizens, and that the advice therein given proves to our satisfaction the Editor to be *not only an opponent to us, our liberties and most sacred rights, but also the tyrannical principles therein contained*, show the Editor to be an unfit representative and the Jeffersonian *an unfit organ of the democratic party* in this village, and finally that we as German citizens, do not believe that there is any necessity or call for Mayor Wood, or any other *fanatical* temperance man to interfere with or *dictate* in the management of our generally very orderly village.

ADOYS AMMAN, President.
MARTIN MILLER, Secretary.

The *Jeffersonian*, in reply, very quietly and properly informs these "fanatical" *Anti*-Temperance men, that they have both misrepresented and misunderstood its article, and it adds:

We are opposed to drunkenness in every particular, but especially on the Sabbath, which ought to be respected, and is so we rejoice to say by a very large majority of our American and German citizens, who we are certain would frown down such proceedings if they occurred on any day, much more so on the Sabbath, which even the most reckless hold in reverence, and if our German citizens imagine they can muzzle the *Jeffersonian*, or deter or intimidate us from *discharging* our duty as the publisher of a public newspaper, by sending us such expressions as the above, they mistake our character.

In these sentiments, the *Jeffersonian* will be sustained not only by its contemporaries of the press, but by law and order loving citizens of all parties and of all nationalities.

FOREIGNERS IN ARMS AGAINST THE MAINE LAW.—We notice in one of the French papers in this city a call for a meeting at the Red Republican rendezvous in Leonard street, to take place on Monday next. This is a part of a movement gotten up by various foreign societies here, to resist by an armed force "a Foreign Brigade" any attempt to execute the Prohibitory Liquor Law, which goes into effect on next Tuesday evening We are also informed that the Germans are organized and drilled for the same purpose. This movement, was probably caused by the report that the Governor of the State intended to call out the Militia to assist in the execution of the law. Our advice is to all well disposed Frenchmen to keep away from the meeting in Leonard Street. If they feel excited on the subject, let them put a little more water in their claret, and keep as cool as possible. New York is not Paris, and we have no Faubourgh Saint Antoine—We advise the Germans to lay by their arms—stick to the opera, lager bier, gymnastic feats, Von Weber's music and their singing feasts. Let the prohibitory law alone. You will only hurt your own cause by being too hasty in its defence. A foreign armed mob in the streets of New York would be shot down like dogs in a very short space of time, and at exceedingly short notice. Let the French and Germans remember this.—[N. Y. Herald.

Report of the First Exhibition of Milwaukee Horticultural Society for 1855.

It is now four years, since a few of the most sanguine friends of Horticulture, determined to hold an exhibition, although many feared a failure in the then infancy of the cause.

But our first attempt in Military Hall gave us courage to proceed, and since then our course has been onward, and the show of Fruit and Flowers, at this time, made in the teeth of three Frosts in June, proves that we are fixed on solid ground. Nor is ours a precarious existence, resting on legislative aid for support, but we rest in strength on our own exertions, and (we acknowledge it with pleasure) on the free-will offerings of the liberal citizens of Milwaukee.

Commensurate with the growth of this Society, has been the improvement in the garden of the amateur, and where four years since was seen only a few annuals, or at most, a blush rose, may now be seen the rarest products of La Belle France blooming in beauty. In the rarity and excellence of the seaboard, and should the improvement continue as heretofore, the time is not far distant when our own proud Milwaukee shall be known as the great Floral City of the west.

From the Stevens Point Pinery

Lumber in the Pineries.

WAUSAU, June 13th 1855.

EDITOR OF THE PINERY:

Notwithstanding the coldness and dryness of the season, our lumbermen are determined not to "give up the ship," but are determined to make lumber as long as they have room to *pile* it, and trust Providence *for* water to run it out on.

Marathon County Mills are generally acknowledged, to be the best in the State of Wisconsin; yet, for the past few days, *they have been outdoing themselves.* For the last twenty three successive days, Mr. William Kennedy, who has been running a *span* of saws in the Messrs. McIndoe & Shuter's Mill of this place, has sawed 412,000 feet of lumber, making an average of 17,913 feet per day.

Messrs. Ruggles & Luce in *six* successive days, last week sawed with a single saw, in Messrs. Whiting & Goodrichs' Mill one hundred and sixteen thousand, seven hundred and twelve feet; making an average of 19,452 feet per day.—No particular extra exertion was made by either Kenedy, or Ruggles and Luce, excepting that Messrs Ruggles & Luce, from Wednesday noon till Saturday evening,—being seventy-eight hours, sawing seventy-five thousand feet. They had one break down within the time which took them six hours to repair, leaving only seventy-two hours running time, making a fraction over one thousand and forty-one feet, per hour sawing time.

Taking into consideration the fact that the water is at as low a stage as was ever known in the Wisconsin river, and this is considered here good business. It is confidently believed by Messrs. Ruggles & Luce, that with a full head of water, they can saw with that single saw, one thousand feet per hour, weeks in succession, and take the logs as they run.

DETERMINED TO MAKE IT PLEASANT.—The Toronto *Colonist* says the steamer "Lady Elgin," which arrived at Collingwood, from Chicago, on Friday evening, brought 80 passengers and 300 tons of freight. Being a little too late for the train, and having brought so large a number of passengers, Capt. Chamberlain sent an invitation to Barrie by telegraph for a Ball. There were in consequence met together, from Chicago Collingwood, Barrie, Toronto and perhaps Boston and New York, those who a few hours before were hundreds of miles apart. At this place where, little more than a year ago, nothing but the lake and forrest were to be seen, were assembled in a beautifully arranged and elegant room, hand some and well dressed ladies, accompanied by gentlemen fit partners for the fair, with music and all the et cet ras required for such an assemblage. This had more the appearance of an Arabian Nights' entertainment than the sober reality. The dance was kept up with spirit until the next morning, all being delighted with the Boat, the Captain and Band, for the evening's enjoyment.

THE CROPS IN OHIO & MICHIGAN.—The newspapers and private letters from Ohio represent the wheat crop as very promising and the yield and quality likely to be excellent. In Michigan an average crop only is looked for, the weevil, having done considerable damage.

CLINTON, ROCK COUNTY.—This fine town, according to the report of the Town Clerk in the Beloit *Journal*, contains 1359 inhabitants of which 709 are males, 650 females, 1 deaf and dumb, 1 blind, 369 of foreign birth; of which 279 are Norwegians, 58 Irish, 6 English, 3 Germans, 3 Canadians, and 2 Scotch. In 1850 Clinton had 1214 inhabitants—increase since 145.

STATISTICS OF BELOIT.—The Beloit *Journal* publishes an interesting statement of the census, manufactures, &c., of that thriving and handsome town, prepared by the Town Clerk. We condense the items for the information of our readers. The total population is 4219, against 2732 in 1750—showing a substantial increase in five years, of 1487. Of the aggregate population (4219) there are 898 of foreign birth, thus divided:

Born in Ireland,	382	In France.	1
" England,	146	Wales.	1
" Norway,	126	Mexico,	
" Germany & Holland,	97	Sweden,	
" Canada,	81	Nova Scotia,	
" Scotland,	33	Shetland Is.,	

As to occupations, there are 230 farmers, 29[illegible] mechanics, 20 ministers, 15 physicians, and 1[illegible] lawyers. There are 583 dwellings and 200 stores, offices and public buildings of various sorts, including 6 churches, 5 hotels, 2 college buildings, 3 flouring mills, 2 foundries, 2 steam planing mills, and several factories. More than 5[illegible] buildings, including an extensive paper mill, are going up. The aggregate value of manufactures last year, as far as ascertained, was $418,812, and will be greatly increased this year.

☞ The Milwaukee and Watertown Railroad will probably be completed to this place by the 10th of August next. This is the opinion of Dr Johnson, the President of the company, who was in town last Monday and made this statement to us. He says a large portion of the iron has been shipped from Oswego, and should be in Milwaukee some time during the present week. He says that every effort will be made to get the road between this city and Oconomowoc in running order, in the early part of August, as the company estimate their loss at six thousand dollars for every month of delay.—*Watertown Dem*

☞ The schooners *Antelope* and *Augustus* arrived yesterday from Oswego, with 2,192 bars of railroad iron for the Detroit & Milwaukee Railway.—[Detroit Tribune, June 27.

TALKING PLAINLY.—The Madison *Patriot*, (dem.) denounces the early call for a Democratic State Convention and the basis of representation adopted as a "Barstow" trick, intended to secure the control of the Convention to the adherents of the present administration. It closes its article thus:

How this farce will end we know not, but we think that with an unexceptionable ticket a democratic victory is certain—a Barstow victory never. This is no time to hitch in the old political hacks who hunt after office to replenish their dilapidated pockets out of the hard-earned dollars of the tax payers of the state. We now, for a change, want honest men, not professed politicians; and if such a ticket is presented to the people, a ticket in which they can have perfect confidence, a ticket unconnected with any school land plundering, or Lunatic Asylum, or "Reports," we have the fullest confidence in success. Without such a ticket, an overwhelming Shanghai victory is inevitable, yes, and *preferable.*

"TURNED UP" AGAIN.—We learn from the Fond du Lac *Freeman*, that the 'Pavilion Amphitheatre, Cirque de Hippodrome," &c., which "went up" in a blaze of glory, at Kenosha, a week or two since, has re-appeared on earth and made its *entree* into the Fountain city, on Wednesday last, in a wagon and four, with a very brass band and brazen operators seated inside. The *Freeman* seems puzzled to decide whether the affair was a libel on a circus, or a caravan.

DALTON ACADEMY.—We invite attention to the notice in our advertising columns, from the Trustees of the Academy at Dalton, Sauk County. The Institution is well conducted, and the location one of the pleasantest and healthiest in the state. It is an excellent place to send city boys to, and country boys as well.

DEATH BY LIGHTNING.—During the storm of last Friday night, a most shocking occurrence took place six miles east of Red Wing, at the house of a widow lady by the name of Wright. The family consisted of some seven or eight persons, part of whom slept in the second story, and part on the ground floor. The lightning struck the house, killing two members of the family, and what was most singular, it proved fatal to one that was sleeping in the upper story, and one on the lower floor, and these persons had each a companion in bed with them at the time, both of whom were unharmed. The oldest daughter, a young lady, and a boy some seven or eight years of age were killed. The family were strangers, having but lately arrived in the Territory.—[Minnesota Pioneer, June 20.

☞ An Irishman, was robbed of $230 at an Irish shanty, near the Depot, night before last He was a stranger, and stopped over night at the shanty. In the morning his money was missing Subsequently, on instituting a search, it was found in the possession of the family with whom he stopped, and they—husband, wife, and son—have been lodged in jail.—[Madison Journal

THE BIBLE IN SCHOOLS.—The Supreme Court of Maine has pronounced in the case of Donohoe vs Richards and others, which was argued at Bangor last summer. The suit was brought in behalf of a girl attending one of the public schools at Ellsworth, against the School Committee of the town, for prohibiting her attendance at the school. The Committee had directed the English Bible to be read in the school. Several children of Roman Catholic parents of whom the plaintiff was one, refused to comply with the regulation, and were prohibited from attending the school. The case was argued by Mr James S. Rowe of Bangor, for the plaintiff, and Mr. R. H. Dana, Jr., of Boston, for defendants. The opinion was delivered by Judge Appleton, and occupies six columns of *The Bangor Courier*, The decision is in favor of the defendants.

WANTED.—By a young lady, aged nineteen, of pleasing countenance, good figure and agreeable manners, general information and varied accomplishments, who has studied everything, from the creation to crotchet, a situation in the family of a gentleman. She will take the head of the table, manage his household, scold his servants, nurse his babies (when they arrive,) check his tradesmen's bills, accompany him to the theatre, cut the leaves of his new books, sew on his buttons, warm his slippers, and generally make his life happy. Apply in the first place by letter to Louisa Caroline, Linden Grove, and afterwards to papa upon the premises. Wedding ring, No. 4, small.

P. S. No Irish need apply.—[English paper.

WEEVIL IN WHEAT.—We learn from a reliable source, that the weevil has appeared, and is committing its ravages in the wheat fields in the Counties of Defiance and Williams in this State, and in the Counties of De Kalb and Allen (which embraces Fort Wayne) in Indiana.—[Toledo Blade, June 27.

POPULATION OF WIOTA.—Males, 670 females, 663; deaf and dumb, 2; blind, 1; of these 325 of foreign birth. Total 1342. In 1850 the population was—males, 357; females, 464. Total 721. Increase in five years, 621.—[Shullsburg Patriot.

KILLED BY LIGHTNING.—We are informed by Mr. John Bennett, of Kingston, Marquette County, Wis., that on Saturday evening, 16th inst., during a heavy thunder storm at that place, the house of a German named Kouse, was struck by lightning, the fluid coming in at the roof, passing down the ceiling until just over the window beneath which Mr. K. was sitting with a daughter some twelve or fourteen years of age, it seemed to separate and came down both sides of the window, killing him instantly, and stunning the girl, though not so much but she recovered.—No further damage was done.—[Beaver Dam Sentinel, June 27.

M. & M. RAILROAD.—Messrs. BRODHEAD and EDGERTON, M. & M. R. R. Engineers, have been here for the purpose of locating the Western Railroad depot. The grading of the whole line is now sub let to responsible contractors, and the work on this end of the route will be commenced as soon as the necessary men and implements can be got upon the ground.—[Prairie du Chien Patriot, June 22.

☞ The Louisiana, from Collingwood, brought in Friday last, *eighty seven* Belgian emigrants who are making their homes in this vicinity, generally near Bay Settlements.

A party of about forty emigrants, who, we understand, belonged with those who came by the Collingwood route, but separated from them at Buffalo and came by way of Chicago, reached here on Sunday morning. At Milwaukee, some scamp had agreed to bring them to Green Bay, and rigged up a crazy old schooner for the purpose, and landed them at Menomonee, having first secured their passage money. From Menomonee, they managed to get here with a sail boat. If the report of this shameless mistreatment proves true, the perpetrator should be at once punished for it.—[Green Bay Advocate.

RACINE HARBOR—TO WHOM IT MAY CONCERN.—This may certify that there is now full nine feet of water on the bar at the entrance of this bar, and not less than that depth in the channel inside. This may be relied on, as the fact has been ascertained from actual and careful examination

TESTIMONY OF A PHYSICIAN.

Extract of a letter dated Pittsburgh, January 12th, 1852:

"I will say that your Mustang Liniment is about the best Liniment I ever used. I have used it in my own case, along the lower part of the spine, for spinal irritation, with complete relief. I used it a few nights ago, when I was perfectly crooked, and my back in complete torture, from what the books would call Opisthotonic condition of the muscles, which you know is about as bad as "lock-jaw." It gave immediate relief, and in the morning I could bend like a gutta percha man and with as little pain. The medical profession, you know, has a great aversion to these kinds of remedies, but from a knowledge of the ingredients of the Mustang Liniment, I would have no hesitation in recommending it, wherever a remedy to relieve pain is indicated. I have recommended it in a number of cases in my own practice, and as far as I can learn it has acted with equal celerity as in my own case Hoping that it may be used for and drive away pain, wherever it exists, and that it may remunerate you for your exertions for bringing so valuable a remedy before the public, I subscribe myself,

Truly yours, GEO. H. KEYSER, M. D.

The world-wide renown of his Pills and Ointment are too well known to require much comment from us; but they are, without doubt, the most efficacious remedies for many complaints. Many of our readers have derived immense benefit from using the Pills in cases of bile, and general derangement of the stomach and bowels, and no cutaneous disease can resist the curative powers of the Ointment,—the effect it has on the human frame is certainly astonishing. je20-1w&w

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, whilst it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.

While the representative of a family lives, (although, through neglect to insure his property, he become bankrupt,) he supports his family; but at his death, dissolves their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the *premium* is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that, at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*.

The farmer who has still a mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

THE CONCERT TO-NIGHT!—We were all day yesterday sorry that we were requested to tell our readers that they could not hear PARODI and her party to-night, but just as we were going to press, we received a despatch stating that they will *positively* be here. It is entirely unnecessary to urge our readers to attend, even if we had time to do so. The evening papers which publish the advertisement will please insert it this afternoon.

The Milwaukee & Mississippi R. R.

THE Milwaukee and Mississippi Railroad Company in the month of March last, entered into a contract with Messrs Cook & Lockwood for the completion of their road from Madison, the present terminus, to Prairie du Chien, on the Mississippi River. We are to-day informed by the Directors that in all probability the entire line, ninety five miles in length, will be ready for the superstructure during the present year, leaving the bridging and laying the track for the year 1856 by the close of which the whole work by the terms of the contract, is to be completed. To meet engagements entered into by the contract, and to provide the means to liquidate the $1,250,000 of bonds maturing in 1862 and 1863, the company have executed a mortgage upon the road to secure the payment of bonds to the amount of $2,500,000, payable in 1877—one half this amount is set apart for the completion and equipment of the road, and the other half is reserved to redeem the bonds maturing in 1862 and 1863.

In addition to the mortgage which under any circumstances, would be considered ample security for the payment of the $2,500,000, the company have created a sinking fund, and have set aside annually the sum of $50,000 for the ensuing twenty-two years which is to be paid over to a Trustee in the city of New York, and to be by him invested in the repurchase of the bonds of the company if they can be purchased at par or under, and if they cannot be so purchased, then the same is to be invested in such other securities as the company may, from time to time determine.

This annual sum with the accumulated interest thereon, will be sufficient to pay all the bonds of the company secured by mortgage, at or before maturity, or in other words, at the expiration of twenty-two years the mortgage debt of the company, amounting to $2,500,000, *will be entirely paid*. This sinking fund is a part of the contract with the bond holders—it is one of the provisions and conditions of the mortgage, and consequently insures the prompt and certain payment of the annual sum of $50,000 into the sinking fund, and the faithful application of the same to the purposes intended by the Company. We congratulate the Directors upon their wisdom and sagacity in adopting this scheme, which cannot fail to have a beneficial effect upon the standing and reputation of their road.

It has been too much heretofore the custom of roads to issue their bonds without making any provision for their payment. The Milwaukee and Mississippi R. R. Co., have set an example worthy of imitation by other companies and which must eventually be adopted by all who have to rely mainly upon credit to build their roads. In times disastrous to the reputation and finances of railroads, this company has maintained a high standing, its bonds have been a favorite investment with capitalists in this country and in Europe. This standing it has acquired by a prudent management of its business, by promptly meeting its engagements, and by the exercise of rigid economy in all its affairs. Its earnings have far exceeded the hopes of its most sanguine friends, and its losses from casualties have been less than those upon any other road running the same distance, and for the same length of time.

The system now adopted will raise still higher the character and standing of the road, enhance the value of its stock and bonds, and give renewed hope and confidence to its friends. We regard this road as now standing on a safe and solid basis, certain to accomplish the object of its projectors, in affording a profitable investment to its stockholders, and adding vastly to the wealth and population of Milwaukee and Wisconsin.

The earnings thus far for the present year, exceed those for the corresponding months of the last year by about 40 per cent. For the year they will be $[illegible],000, an increase of $150,000 over the earnings of the last year. We shall expect the earnings to reach *a million and a half of dollars* for the first year after the road shall have reached the Mississippi. Thus far the road has been [illegible] wholly upon a local business—extending but half across the State, and drawing but little business beyond the borders of Wisconsin. When completed to the Mississippi the road will furnish the shortest and cheapest route for freight and passengers to and from New York for Wisconsin, Northern Iowa and Minnesota—a region of country which is now increasing faster in wealth and population than any other portion of the United States. As citizens of Wisconsin, we have just reason to feel proud of this Pioneer Road of our young State. We have stood by it through evil and through good report—never doubting its ultimate success, and look forward to the day as not far distant, when we can congratulate the citizens of Wisconsin on the completion of the Milwaukee and Mississippi Rail Road.

THE REPUBLICAN STATE CONVENTION.—The *Free Democrat* of last evening, in noticing an article from the Whitewater Gazette on the subject of the Republican State Convention, takes occasion to say:

It was the members of the Legislature and the Republicans present from all parts of the State to whom the subject was submitted for advice, who recommended that two delegates from each Assembly District should compose the State Convention, and the Committee adopted that advice. [illegible] then, but the Janesville *Gazette* [illegible] and *Journal* who propose to set [illegible] this basis.

The *Free Democrat* makes no such proposition.—If the Committee has adopted this basis, we are content [illegible] the one suggested by ourselves, or that proposed by the Janesville *Gazette*, we are equally [illegible].

MILWAUKEE AND HORICON RAILROAD.—The people of [illegible] are to vote, on the 14th proximo, upon the proposition to exchange $50,000 of their Town Bonds, for the bonds of the R. R. Company, by way of helping along the work.—We cannot doubt that they will respond heartily and favorably to the Company's appeal for aid. Our [illegible] has set them a good example.

CREDIT OMITTED.—The article in yesterday's *Sentinel* concerning the man Mayberry, now awaiting trial at Janesville for the murder of Alger, should have been credited to the Janesville *Standard*.

ATTORNEY GENERAL.—The Kenosha *Telegraph* makes favorable mention of BYRON PAINE, of this city as a suitable candidate for the office of Attorney General. He would do honor to the station and to the people who would elect him to fill it.

"[illegible]"—The *Wisconsin* of last evening, under the head of "*Voice of the People*" publishes a long letter from a Columbia Co. Democrat, predicting Barstow's defeat, should he be renominated, and urging [illegible] as the stand, and in the next column, under the head of "*Wisconsin politics*" a letter from Madison to the N Y *Herald*, insisting that Barstow is by far the strongest one and that if he cannot be elected no democrat can. The *Wisconsin* favors its readers with both the opinions, but prudently reserves its own.

Impressions of Minnesota—The Mania of Speculation—No place for Emigrants—Better and Cheaper Land in Wisconsin—Advantages of La Crosse.

DUBUQUE, Iowa, June 25th.

I wrote you last from St. Paul. I propose now to give you my impressions of Minnesota, and its inducements to the immigrant, in comparison with Wisconsin.

Southern Minnesota is represented by every one as an excellent agricultural region. It is undoubtedly equal to some of the best portions of Wisconsin. North of the head of Lake Pepin there is much more waste land, with many locations equal to the Southern part. But all the best, and indeed all the land now in market, lying between the Mississippi and St. Croix Rivers, has been seized upon by speculators, who hold it at an exorbitant price. St. Paul itself is a city of speculation. Paper cities are more abundant in Minnesota now than they were in Wisconsin in '36. At every corner, and in every town, land agencies stare you in the face. The walls of every office, inside and out, are papered with these cities, and town plots. The walls and sidewalks everywhere ask attention to magnificent sites, and make most splendid promises.—The city is mad with this speculation, and the new comer is welcomed only as a new recruit, who has not yet been fleeced. I need not point out to those at all acquainted with the early times of Illinois or Wisconsin what all this will end in. Nor need I add that that region holds out no inducement to the farmer, or agriculturalist.

St. Paul has a beautiful and healthy location. But her inhabitants are doing all in their power to ruin her, and they will probably to a great extent succeed.

But does Minnesota hold out any inducement to the immigrant beyond Wisconsin? *Not one*. There is just as good land in Waushara, Outagamie, Richland, and other Wisconsin counties, which can be purchased at Government price ($1 25) as there is in the vicinity of St Paul, at $5 per acre. Besides this, Wisconsin has already good roads and thoroughfares leading to all these counties—she has commenced a system of Railroads which is doing much for our State. Minnesota has no Railroad nearer than this point.—Her population is yet too scattered, and too poor to do anything towards building them. The Mississippi River is her only outlet, and this closed at least one month longer above Lake Pepin than it is below. What inducement then can the immigrant have in going to Minnesota, at all comparable to that of settling in Wisconsin, or Iowa. I am not the only one who asks this question, as I have heard it repeated continually, and by persons not inhabitants of either State.

The truth is, Minnesota had been loudly cried up by these same interested Land Agents. By this constant system of puffing and noise, they have succeeded in creating something of a prejudice in her favor. But I am inclined to think that the rush of immigration is over.

These are my second impressions, received from observation and careful enquiry.

La Crosse, at which place I made a stoppage on my return, has an excellent location, and is one of the most lively and busy places I have seen. Though on the map it seems to be at the foot of a pretty general system of sloughs, yet it lies high and dry on a pretty, sandy prairie.—The soil here is not good, though I have no where seen so forward Indian Corn as on this prairie. The soil is warm and dry, just right for this grain, and specimens were growing there at least five feet high. All the valley above this prairie, extending through the northern part of La Crosse, Jackson and Monroe counties, is probably the best in western Wisconsin. Villages are rapidly springing up, and I think the census taken will show full tables from that region.

The advantages of La Crosse are its good landing; its location at the mouth of La Crosse and Black Rivers, uniting just at their mouth, and making this a lumber depot, its location below Lake Pepin, which freezes over earlier, and remains frozen longer, than the river below; and its being the terminus of the La Crosse and Mil. Rail Road. I think she has the finest prospects of being the largest place between this and St Paul.

Proscribing a Newspaper for Telling the Truth.

The *Jeffersonian*, a well conducted and excellent democratic paper published at the county seat of Jefferson county, has fallen under the ban of certain inconsiderate Germans residing in the town—the offence consisting in publishing the particulars of a disgraceful drunken row, which took place in that town on *Sunday*, the 10th inst., at Gruber's tavern; and in expressing the opinion that the sale of liquors on Sunday should be prohibited, and that such a man as Mayor Wood (of New York) was wanted in their midst. Hereupon the following proceedings were had and duly communicated to the editor of the *Jeffersonian*. We copy from that paper. The publication of the above, as is set forth, called for a mass meeting, which was held on *Sunday*, the 17th inst., which resulted in the following anathema being pronounced against him:

To the Editor of the Jeffersonian:

JEFFERSON, Wis.

At a mass meeting of the German citizens of the village of Jefferson and surrounding country held at the house of H. Gottfried, on the 17th day of June, 1855, the following resolution was *unanimously* adopted:

Resolved, That the article in the Jeffersonian of the 14th inst., headed *disgraceful drunken row*, indirectly casts reflections upon *innocent* citizens, and that the advice therein given proves to our satisfaction the Editor to be *not only an opponent to us, our liberties and most sacred rights, but also the tyrannical principles therein contained*, show the Editor to be an unfit representative and the Jeffersonian *an unfit organ of the democratic party* in this village, and finally that we as German citizens, do not believe that there is any necessity or call for Mayor Wood, or any other *fanatical* temperance man to interfere with or *dictate* in the management of our generally very orderly village.

ADOYS AMMAN, President.
MARTIN MILLER, Secretary.

The *Jeffersonian*, in reply, very quietly and properly informs these "fanatical" *Anti*-Temperance men, that they have both misrepresented and misunderstood its article, and it adds:

We are opposed to drunkenness in every particular, but especially on the Sabbath, which ought to be respected, and is so we rejoice to say by a very large majority of our American and German citizens, who we are certain would frown down such proceedings if they occurred on any day, much more so on the Sabbath, which even the most reckless hold in reverence, and if our German citizens imagine they can muzzle the *Jeffersonian*, or deter or intimidate us from discharging our duty as the publisher of a public newspaper, by sending us such expressions as the above, they mistake our character.

In these sentiments, the *Jeffersonian* will be sustained not only by its contemporaries of the press, but by law and order loving citizens of all parties and of all nationalities.

FOREIGNERS IN ARMS AGAINST THE MAINE LAW.—We notice in one of the French papers in this city a call for a meeting at the Red Republican rendezvous in Leonard street, to take place on Monday next. This is a part of a movement gotten up by various foreign societies here, to resist by an armed force "a Foreign Brigade" any attempt to execute the Prohibitory Liquor Law, which goes into effect on next Tuesday evening. We are also informed that the Germans are organized and drilled for the same purpose. This movement was probably caused by the report that the Governor of the State intended to call out the Militia to assist in the execution of the law. Our advice is to all well disposed Frenchmen to keep away from the meeting in Leonard Street. If they feel excited on the subject, let them put a little more water in their claret, and keep as cool as possible. New York is not Paris, and we have no Faubourgh Saint Antoine.—We advise the Germans to lay by their arms—stick to the opera, larger bier, gymnastic feats, Von Weber's music and their singing feasts. Let the prohibitory law alone. You will only hurt your own cause by being too hasty in its defence. A foreign armed mob in the streets of New York would be shot down like dogs in a very short space of time, and at exceedingly short notice. Let the French and Germans remember this.—[N. Y. Herald.

Report of the First Exhibition of Milwaukee Horticultural Society for 1855.

It is now four years, since a few of the most sanguine friends of Horticulture, determined to hold an exhibition, although many feared a failure in the then infancy of the cause.

But our first attempt in Military Hall gave us courage to proceed, and since then our course has been onward, and the show of Fruit and Flowers, at this time, made in the teeth of three Frosts in June, proves that we are fixed on solid ground. Nor is ours a precarious existence, resting on legislative aid for support, but we rest in strength on our own exertions, and (we acknowledge it with pleasure) on the free-will offerings of the liberal citizens of Milwaukee.

Commensurate with the growth of this Society, has been the improvement in the garden of the amateur, and where four years since was seen only a few annuals, or at most, a blush rose, may now be seen the rarest products of La Belle France blooming in beauty. In the rarity and excellence of the seaboard, and should the improvement continue as heretofore, the time is not far distant when our own proud Milwaukee shall be known as the great Floral City of the west.

From the Stevens Point Pinery

Lumber in the Pineries.

WAUSAU, June 13th 1855.

EDITOR OF THE PINERY:

Notwithstanding the coldness and dryness of the season, our lumbermen are determined not to "give up the ship," but are determined to make lumber as long as they have room to *pile* it, and trust Providence for water to run it out on.

Marathon County Mills, are generally acknowledged, to be the best in the State of Wisconsin; yet, for the past few days, *they have been outdoing themselves*. For the last twenty three successive days, Mr. William Kennedy, who has been running a *span* of saws in the Messrs. McIndoe & Shuter's Mill of this place, has sawed 412,000 feet of lumber, making an average of 17,913 feet per day.

Messrs. Ruggles & Luce in *six successive days*, last week sawed with a single saw, in Messrs. Whiting & Goodrichs' Mill one hundred and sixteen thousand, seven hundred and twelve feet; making an average of 19,452 feet per day.—No particular extra exertion was made by either Kenedy, or Ruggles and Luce, excepting that Messrs Ruggles & Luce, from Wednesday noon till Saturday evening,—being seventy-eight hours, sawing seventy-five thousand feet. They had one break down within the time which took them six hours to repair, leaving only seventy-two hours running time, making a fraction over one thousand and forty-one feet, per hour sawing time.

Taking into consideration the fact that the water is at as low a stage as was ever known in the Wisconsin river, and this is considered here good business. It is confidently believed by Messrs. Ruggles & Luce, that with a full head of water, they can saw with that single saw, one thousand feet per hour, weeks in succession, and take the logs as they run.

DETERMINED TO MAKE IT PLEASANT.—The Toronto *Colonist* says the steamer "Lady Elgin," which arrived at Collingwood, from Chicago, on Friday evening, brought 80 passengers and 300 tons of freight. Being a little too late for the train, and having brought so large a number of passengers, Capt. Chamberlain sent an invitation to Barrie by telegraph for a Ball. There were in consequence met together, from Chicago, Collingwood, Barrie, Toronto and perhaps Boston and New York, those who a few hours before were hundreds of miles apart. At this place where, little more than a year ago, nothing but the lake and forest were to be seen, were assembled in a beautifully arranged and elegant room, head one and well dressed ladies, accompanied by gentlemen fit partners for the fair, with music and all the et cet ras required for such an assemblage. This had more the appearance of an Arabian Nights' entertainment than the sober reality. The dance was kept up with spirit until the next morning, all being delighted with the Boat, the Captain and Band, for the evening's enjoyment.

POLICE COURT—June 29th.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Warrants were issued against Miranda Smith, for assault and battery upon Nancy Fiskins on the 25th; also against Urial B. Smith for assault and battery upon the same person on the 29th also a warrant against Matthias Fitzen for taking dirt without authority from lots owned by Henry Berliner; for larceny or embezzlement against Martin Neustadt for taking $80 from William Wilson; against John E. Johnson and Charles Henderson, for stealing a watch from Neil McKeog, and one other watch from some other person unknown. These are two colored boys arrested by constable Ryan, who wants an owner for one of the watches and other property in his hands. A warrant was also issued against John Lipscomb for assault and battery upon his wife.

Several cases were settled by the parties paying their costs—a rule the Police Justice has adopted to save the county from costs.

RAIL ROAD EXCURSION TO-DAY.—The Milwaukee & Watertown R. R. company have placed at the disposal of the teachers and pupils of the Female College, sufficient passenger cars to accommodate them, and all the friends of the school, for the excursion to the pleasant village of Oconomowoc, which will take place to-day, June 30. The train will leave at 7 o'clock, A. M., and returning, leave Oconomowoc at 3½ P. M., arriving here at 6 o'clock. Boats have been prepared at Oconomowoc for a sail on the lake, and the citizens there will contribute to their utmost to make the excursion pleasant.

ICE! ICE!—The hot weather of the last few days reminds us to say that KROEGER, the Ice dealer, has any quantity of this indispensable article on hand, and plenty of men and carts to distribute it among his customers. Orders may be left at WARNER's on East Water street; and if any omissions occur, KROEGER will be glad to be notified thereof, that he may correct them.

FOR COLLINGWOOD.—The *Queen City*, which left here yesterday morning for Collingwood, had every berth and state room occupied. The next steamer of the line is the *Lady Elgin*, which leaves to-morrow morning. For passage apply to O. D. COLBY, agent, on Huron street.

CRICKET.—If the weather be not too hot, this afternoon, the Milwaukee Cricket Club will meet for practice at 3 P. M., on their grounds above Spring St. Hill. As this is the last opportunity for practice before the match on the Fourth, a full attendance of members is especially desired.

ACKNOWLEDGEMENT.—We are indebted to the ladies of St. James' Parish, for a very acceptable token of their good will.

☞ Rev. JOHN KIDD is expected to preach in the Fifth Ward Presbyterian Church to-morrow at 3 o'clock P. M.

FOR BUFFALO.—The steamer *Globe*, Capt. Pratt leaves for Buffalo on Monday morning. For passage apply to J. Griffin, Huron Street.

FOUND.—One of the legs of the murdered man found in the river some time since so horribly mutilated, was found in the river yesterday morning, just below Helfenstein's Warehouse.

THEATRE.—An attractive bill is offered for this evening; the favorite play of "the Stranger" with Mrs. LEIDENNER as Mrs. Haller, and the amusing farce of the "Yankee Rivals," in which Mr. LEFLER appears.

PAPER HANGINGS, CURTAIN FIXTURES, &c.—Attention is invited to the notice in our advertising columns from WM. W. HILL & Co., Spring St., opposite the American House, who will furnish all styles of Paper Hangings, Curtain Fixtures, &c.

FAIR HIT.—The Racine *Advocate*, in noticing the appointment of the Rev. C. BARRY to the post of State Superintendent, says that the reason of his appointment was that the Forty were fearful of an execution without *the benefit of the clergy!*

☞ The attention of Business men and others is directed to the card, in our advertising columns, from ROBERT A. BAKER, Banking and Exchange Br Real Estate Agent at Fond du Lac.

THE CROPS IN OHIO & MICHIGAN.—The newspapers and private letters from Ohio represent the wheat crop as very promising and the yield and quality likely to be excellent. In Michigan an average crop only is looked for, the weevil having done considerable damage.

CLINTON, ROCK COUNTY.—This fine town, according to the report of the Town Clerk in the Beloit *Journal*, contains 1359 inhabitants of which 709 are males, 650 females, 1 deaf and dumb, 1 blind, 369 of foreign birth; of which 279 are Norwegians, 58 Irish, 6 English, 3 Germans, 3 Canadians, and 2 Scotch. In 1850, Clinton had 1214 inhabitants—increase since 145.

STATISTICS OF BELOIT.—The Beloit *Journal* publishes an interesting statement of the census, manufactures, &c., of that thriving and handsome town, prepared by the Town Clerk. We condense the items for the information of our readers. The total population is 4219, against 2732 in 1750—showing a substantial increase in five years of 1487. Of the aggregate population (4219) there are 898 of foreign birth, thus divided:

Born in Ireland,	382	In France,	1
" England,	146	Wales,	1
" Norway,	126	Mexico,	
" Germany & Holland,	97	Sweden,	
" Canada,	81	Nova Scotia,	
" Scotland,	33	Shetland Is.,	

As to occupations, there are 230 farmers, 29[illegible] mechanics, 20 ministers, 15 physicians, and 1[illegible] lawyers. There are 583 dwellings and 200 stores offices and public buildings of various sorts, including 6 churches, 5 hotels, 2 college buildings, 3 flouring mills, 2 foundries, 2 steam planing mills, and several factories. More than 5[illegible] buildings, including an extensive paper mill, are going up. The aggregate value of manufactures last year, as far as ascertained, was $418,812, and will be greatly increased this year.

☞ The Milwaukee and Watertown Railroad will probably be completed to this place by the 10th of August next. This is the opinion of Dr. Johnson, the President of the company, who was in town last Monday and made this statement to us. He says a large portion of the iron has been shipped from Oswego, and should be in Milwaukee some time during the present week. He says that every effort will be made to get the road between this city and Oconomowoc in running order, in the early part of August, as the company estimate their loss at six thousand dollars for every month of delay.—*Watertown Dem.*

☞ The schooners *Antelope* and *Augustus* arrived yesterday from Oswego, with 2,192 bars of railroad iron for the Detroit & Milwaukee Railway.—[Detroit Tribune, June 27.

TALKING PLAINLY.—The Madison *Patriot*, (dem.) denounces the early call for a Democratic State Convention and the basis of representation adopted as a "Barstow" trick, intended to secure the control of the Convention to the adherents of the present administration. It closes its article thus:

How this farce will end we know not, but we think that with an unexceptionable ticket a democratic victory is certain—a Barstow victory never. This is no time to hitch in the old political hacks who hunt after office to replenish their dilapidated pockets out of the hard-earned dollars of the tax payers of the state. We now, for a change, want honest men, not professed politicians; and if such a ticket is presented to the people, a ticket in which they can have perfect confidence, a ticket unconnected with any school land plundering, or Lunatic Asylum, or "Reports," we have the fullest confidence in success. Without such a ticket, an overwhelming Shanghai victory is inevitable, yes, and *preferable*.

"TURNED UP" AGAIN.—We learn from the Fond du Lac *Freeman*, that the "Pavilion Amphitheatre, Cirque de Hippodrome," &c., which "went up" in a blaze of glory, at Kenosha, a week or two since, has re-appeared on earth and made its *entree* into the Fountain city, on Wednesday last, in a wagon and four, with a very brass band and brazen operators seated inside. The *Freeman* seems puzzled to decide whether the affair was a libel on a circus, or a caravan.

DALTON ACADEMY.—We invite attention to the notice in our advertising columns, from the Trustees of the Academy at Dalton, Sauk County. The Institution is well conducted, and the location one of the pleasantest and healthiest in the state. It is an excellent place to send city boys to, and country boys as well.

"HOLD! ENOUGH"—The following communication to the Clerk of the Weather is taken from the Cincinnati *Times*.

AQUEOUS FLOOD, *Clerk of the Weather*:

DEATH BY LIGHTNING.—During the storm of last Friday night, a most shocking occurrence took place six miles east of Red Wing, at the house of a widow lady by the name of Wright. The family consisted of some seven or eight persons, part of whom slept in the second story, and part on the ground floor. The lightning struck the house, killing two members of the family, and what was most singular, it proved fatal to one that was sleeping in the upper story, and one on the lower floor, and these persons had each a companion in bed with them at the time, both of whom were unharmed. The oldest daughter, a young lady, and a boy some seven or eight years of age were killed. The family were strangers, having but lately arrived in the Territory.—[Minnesota Pioneer, June 20.

☞ An Irishman, was robbed of $230 at an Irish shanty, near the Depot, night before last. He was a stranger, and stopped over night at the shanty. In the morning his money was missing. Subsequently, on instituting a search, it was found in the possession of the family with whom he stopped, and they—husband, wife, and son—have been lodged in jail.—[Madison Journal

THE BIBLE IN SCHOOLS.—The Supreme Court of Maine has pronounced in the case of Donohoe vs Richards and others, which was argued at Bangor last summer. The suit was brought in behalf of a girl attending one of the public schools at Ellsworth, against the School Committee of the town, for prohibiting her attendance at the school. The Committee had directed the English Bible to be read in the school. Several children of Roman Catholic parents of whom the plaintiff was one, refused to comply with the regulation, and were prohibited from attending the school. The case was argued by Mr. James S. Rowe of Bangor, for the plaintiff, and Mr. R. H. Dana, Jr., of Boston, for defendants. The opinion was delivered by Judge Appleton, and occupies six columns of *The Bangor Courier*. The decision is in favor of the defendants.

WANTED—By a young lady, aged nineteen, of pleasing countenance, good figure and agreeable manners, general information and varied accomplishments, who has studied everything, from the creation to crotchet, a situation in the family of a gentleman. She will take the head of the table, manage his household, scold his servants, nurse his babies (when they arrive,) check his tradesmen's bills, accompany him to the theatre, cut the leaves of his new books, sew on his buttons, warm his slippers, and generally make his life happy. Apply in the first place by letter to Louisa Caroline, Linden Grove, and afterwards to papa upon the premises. Wedding ring, No. 4, small.

P. S. No Irish need apply.—[English paper.

WEEVIL IN WHEAT.—We learn from a reliable source, that the weevil has appeared, and is committing its ravages in the wheat fields in the Counties of Defiance and Williams in this State, and in the Counties of De Kalb and Allen (which embraces Fort Wayne) in Indiana.—[Toledo Blade, June 27.

POPULATION OF WICTA.—Males, 670 females, 663; deaf and dumb, 2; blind, 1; of these 325 of foreign birth. Total 1342. In 1850 the population was—males, 357; females, 464. Total 721. Increase in five years, 621.—[Shullsburg Patriot.

KILLED BY LIGHTNING.—We are informed by Mr. John Bennett, of Kingston, Marquette County, Wis., that on Saturday evening, 16th inst., during a heavy thunder storm at that place, the house of a German named Kouse, was struck by lightning, the fluid coming in at the roof, passing down the ceiling until just over the window beneath which Mr. K. was sitting with a daughter some twelve or fourteen years of age, it seemed to separate and came down both sides of the window, killing him instantly, and stunning the girl, though not so much but she recovered.—No further damage was done.—[Beaver Dam Sentinel, June 27.

M. & M. RAILROAD.—Messrs. BRODHEAD and EDGERTON, M. & M. R. R. Engineers, have been here for the purpose of locating the Western Railroad depot. The grading of the whole line is now sub let to responsible contractors, and the work on this end of the route will be commenced as soon as the necessary men and implements can be got upon the ground.—[Prairie du Chien Patriot, June 22.

☞ The Louisiana, from Collingwood, brought in Friday last, *eighty seven* Belgian emigrants who are making their homes in this vicinity, generally near Bay Settlements.

A party of about forty emigrants, who, we understand, belonged with those who came by the Collingwood route, but separated from them at Buffalo and came by way of Chicago, reached here on Sunday morning. At Milwaukee, some scamp had agreed to bring them to Green Bay, and rigged up a crazy old schooner for the purpose, and landed them at Menomonee, having first secured their passage money. From Menomonee, they managed to get here with a sail boat. If the report of this shameless mistreatment proves true, the perpetrator should be at once punished for it.—[Green Bay Advocate.

RACINE HARBOR.—TO WHOM IT MAY CONCERN.—This may certify that there is now full nine feet of water on the bar at the entrance of this bar, and not less than that depth in the channel inside. This may be relied on, as the fact has been ascertained from actual and careful examination

Vessels in entering the harbor, will keep close to the end of the North Pier, until they get inside, and then cross over to the South Pier, where they will find a channel with nine feet of water up to the warehouses.

Vessels will find not less than eight feet of water anywhere between the piers at the mouth of the harbor.

WOOL.—The wool market is rather better here to-day than for the past two days. We saw some very fine fleece and half Spanish wool sell at 37½ cents to day, and a lot of handsome Spanish merino sold at 35 cents. The quality of the wool coming forward is really very fine.—*Detroit Inquirer, June 28.*

TESTIMONY OF A PHYSICIAN.

Extract of a letter dated Pittsburgh, January 13th, 1852: "I will say that your Mustang Liniment is about the best Liniment I ever used. I have used it in my own case, along the lower part of the spine, for spinal irritation, with complete relief. I used it a few nights ago, when I was perfectly crooked, and my back in complete torture, from what the books would call Opisthotonic condition of the muscles, which you know is about as bad as "lock-jaw." It gave immediate relief, and in the morning I could bend like a gutta percha man and with as little pain. The medical profession, you know, have a great aversion to these kinds of remedies, but from a knowledge of the ingredients of the Mustang Liniment, I would have no hesitation in recommending it, wherever a remedy to relieve pain is indicated. I have recommended it in a number of cases in my own practice, and as far as I can learn it has acted with equal celerity as in my own case. Hoping that it may be used for and drive away pain, wherever it exists, and that it may remunerate you well for your exertions for bringing so valuable a remedy before the public, I subscribe myself,

Truly yours, GEO. H. KEYSER, M. D.

THE attention of our readers is called to Professor Holloway's Advertisements in another part of our columns. The world-wide renown of his Pills and Ointment are too well known to require much comment from us; but they are, without doubt, the most efficacious remedies for many complaints. Many of our readers have derived immense benefit from using the Pills in cases of bile, and general derangement of the stomach and bowels, and no cutaneous disease can resist the curative powers of the Ointment,—the effect it has on the human frame is certainly astonishing. je25-1wd&w

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, whilst it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives, (although, through neglect to insure his property, he become bankrupt,) he supports his family; but at his death, dies also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the *premium* is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that, at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*.

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

CITY LAND OFFICE.
JUNE 28th.

THE GREAT LAND SALE WHICH TOOK PLACE this day, exceeded the expectation of all. The sale commenced at 10 o'clock A. M., and continued after an adjournment until 5 P. M., a large portion of the property was not offered, the owners preferring to pay all expenses and withdraw the same. The property that was sold principally was in the Second Ward, and the said property would sell to-day for fifty per cent. more. This great sale is adjourned until the 27th day of July next, at which time a new arrangement will be entered into. Notice will be given of the property to be sold each day, so that there will be no conflicting of the different Wards hereafter. I expect to be absent some twenty days shooting Squirrels and hunting Ducks, but all arrangements will be made so that all who have any business with my establishment can have it attended to as if I were at home. I find it necessary for my general health and for the general good of our city, to leave for the country a few weeks. I expect, when I return, to have several from the south who will be ready to invest large amounts of property in our city, and also in the county. All who have property to sell send it in there, so that it can be entered in next Catalogue. The Catalogue will be made up by the 20th of July, at which time I will be home. [je30] CALEB WALL.

K. N. Convention at Boston.

Boston, Thursday, June 28.

The K. N. State Council meets at one o'clock to-day. A large number of delegates are in attendance. A preliminary meeting was held last night which was attended by 100 persons, including Senator Wilson, Gov. Gardner, M. P. Balcke Anson Burlingame and several other members of Congress. An address was submitted which puts the party on the platform of the restoration of the Missouri Compromise, still calling it the American party, and calling for a mass convention to be held at some central place. Some are in favor of calling the party American Republicans. One or two dissented from the doctrines of the address, but there is no doubt its sentiments will be adopted by the council. There is some opposition to throwing off the secrecy of the party machinery. Many of the leading politicians of the party in the state are now here.

The New Senators of New Hampshire Speaking.

Concord, Thursday, June 28.

At the meeting of last night the speech of Senator Bell was strongly Whig and Anti-Nebraska in tenor, and advocated an attempt to restore the Missouri Compromise. Mr. Bell's friends consider his speech conservative, but the Democrats hold it as identical with Freesoilism.

Mr. Hale's speech was characteristic, and of course stronger for freesoil. The meeting was large and enthusiastic.

FOR A SHORT TIME ONLY

SPECTACLES, &C., GROUND ON THE EXACT principles of Spherical Accuracy, by G. SOLOMONS, the celebrated Optician, from the Improved Spectacle Manufactory and London Optical Establishment, No. 189 Old Bond street, London, established more than a century ago.

G. Solomons the sole inventor of the Improved Spectacles, and various Improved Glasses, is now on a professional visit to this place, and may be consulted at his office.

EMPIRE BLOCK, NO. 281½,
Nearly opposite the Walker House, East Water Street, Milwaukee.

He has had the honor of attending the above named principal towns in the United Kingdom, where he has experienced the most flattering encouragement—and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London, with a most splendid assortment of his newly invented and improved spectacles. Such is the superiority of these Glasses, that persons having affected or weak eyes, may instantly be relieved by using them, and they possess the property of preserving the sight in perfection to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment, for any length of time, either by day or candlelight. As several individuals in the United States have proved their efficacy, he with confidence solicits the further favors of the public which he will ever be proud to acknowledge, assuring those who entrust him with their commands, that no exertion shall be wanting on his part to merit their confidence and approbation. Added to the advantages possessed by him of long practice in the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession, documents from individuals of rank, conveying the highest testimonials of approbation.

He will give references to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved spectacles.

NEW DISCOVERY FOR DEAFNESS.

The Sound Concentrator is an extraordinary, powerful newly invented small instrument, for the ease of extreme cases of deafness, entirely different in make or construction from all others, surpassing everything of the kind that has been or ever can be produced. They are not inserted in the cavity of the ear, and may be worn without projecting, and being of the same color of the skin are not perceptible. The powers of this valuable invention are so great as to restore defective hearing of long standing to its perfect and natural state, and to enable deaf persons to join in general conversation, to hear most distinctly at places of worship, at the bar or any public assembly; the unpleasant sensation of singing noises in the ear is entirely removed, and the concentration afforded to individuals affected with this dreadful malady, all the assistance that can possibly be desired.

Chicago, Ill., Dec. 21, 1852.

I have examined Mr. G. Solomon's Glasses, and believe them to be constructed upon correct principles, and well suited for all such as have or may have to use them.

J. [illegible], M. D., Mat. Med., &c.
Rush Medical College.

Chicago, Ill., Dec. 21, 1852.

I hereby certify that I am now wearing a pair of Mr. Solomon's Glasses, and think them to answer a better purpose for near-sightedness than any that I have ever used.

J. W. E[illegible], M. D.

Cleveland, Oct. 27th, 1852.

It affords me pleasure to state, that on trial of several specimens of spectacles, placed in my hands by Mr. Solomons, I find myself much relieved from a defect of vision and especially weakness of the eyes from which I have suffered for the past two years, whenever I have exercised them, even for a short period of time. I think they are of an excellent quality, and peculiarly adapted for such purpose.

J. P. K[illegible], M. D.
Professor of Physical Diagnosis, and Theory and Practice of Medicine, Medical Dep. W. R. College.

Rochester, January 15, '51.

The best recommendation that I can give the Glasses of Mr. Solomons, is that I use them myself and prefer them.

JAMES WEBSTER, M. D.
Professor of Anatomy, University of Buffalo.

New York, June 8th, 1850.

Having made a trial of Mr. Solomons' Patent Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am acquainted and accordingly can most cheerfully recommend them to all who need artificial aid in improving their vision.

CHAS. A. LEE, M. D.
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College.

Philadelphia, June 6th, 1850.

I cordially concur, so far as my judgment goes, in the opinion of my friend and colleague Dr. Lee, in reference to the perfection of Mr. Solomons' convex and concave glasses, for far-sightedness. The grinding appears to be good and clear, and the general workmanship superior.

JAMES [illegible], M. D.
Professor of Surgery, Geneva College.

Columbus, February 9, 1853.

Having examined the specimens of Mr. Solomons, I am fully satisfied that they are of a superior quality. I have taken a pair for my own use, and find them unusually easy, to the eye.

T. I. Bowman.
Professor of Surgery, Starling Med Col ge.

I have examined G. Solomon's Glasses and am highly pleased with them, and take the precaution of a selection the best that I have seen, and can recommend them.

CITY LAND OFFICE.

JUNE 28th.

THE GREAT LAND SALE WHICH TOOK PLACE this day, exceeded the expectation of all. The sale commenced at 10 o'clock A. M., and continued after an adjournment until 5 P. M., a large portion of the property was not offered, the owners preferring to pay all expenses and withdraw the same. The property that was sold principally was in the Second Ward, and the said property would sell to day for fifty per cent. more. This great sale is adjourned until the 27th day of July next, at which time a new arrangement will be entered into. Notice will be given of the property to be sold each day, so that there will be no conflicting of the different Wards hereafter. I expect to be absent some twenty days shooting Squirrels and hunting Ducks, but all arrangements will be made so that all who have any business with my establishment can have it attended to as if I were at home. I find it necessary for my general health and for the general good of our city, to leave for the country a few weeks. I expect, when I return, to have several from the south who will be ready to invest large amounts of property in our city, and also in the county. All who have property to sell send it in there, so that it can be entered in next Catalogue. The Catalogue will be made up by the 20th of July, at which time I will be home. [je30] CALEB WALL.

K. N. Convention at Boston.

Boston, Thursday, June 28.

The K. N. State Council meets at one o'clock to-day. A large number of delegates are in attendance. A preliminary meeting was held last night which was attended by 100 persons, including Senator Wilson, Gov. Gardner, M. P. Banks, Anson Burlingame and several other members of Congress. An address was submitted which puts the party on the platform of the restoration of the Missouri Compromise, still calling it the American party, and calling for a mass convention to be held at some central place. Some are in favor of calling the party American Republicans. One or two dissented from the doctrines of the address, but there is no doubt its sentiments will be adopted by the council. There is some opposition to throwing off the secrecy of the party machinery. Many of the leading politicians of the party in the state are now here.

The New Senators of New Hampshire Speaking.

Concord, Thursday, June 28.

At the meeting of last night the speech of Senator Bell was strongly Whig and Anti-Nebraska in tenor, and advocated an attempt to restore the Missouri Compromise. Mr. Bell's friends consider his speech conservative, but the Democrats hold it as identical with Freesoilism.

Mr. Hale's speech was characteristic, and of course stronger for freesoil. The meeting was large and enthusiastic.

SPECTACLES &C., GROUND ON THE EXACT principle of Spherical Accuracy, by G. SOLOMONS, the celebrated Optician, from the Improved Spectacle Manufactory and London Optical Establishment, No. 192 Old Bond street, London, established more than a century ago.

G. Solomons, the sole inventor of the Improved Spectacles, and various Improved Glasses, is now on a professional visit to this place, and may be consulted at his office.

EMPIRE BLOCK, NO. 221½,

Nearly opposite the Walker House, East Water Street, Milwaukee.

He has had the honor of visiting the above named principal towns in the United Kingdom, where he has experienced the most flattering encouragement—and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London, with a most splendid assortment of his newly invented and improved spectacles. Such is the superiority of these Glasses, that persons having inflamed or weak eyes, may instantly be relieved by using them, and they possess the property of preserving the best organ of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment, for any length of time, either by day or candlelight. As several individuals in the United States have proved their theory, he at his confidence [illegible] the [illegible] favor of the public which he will ever be proud to acknowledge, assuring those who entrust him with their commands, that no exertion shall be wanting on his part to merit their confidence and approbation. Added to the advantages possessed by him of long practice in the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the disease of vision, he has in his possession, documents from individuals of rank, conveying the highest recommendation of approbation.

He will give references to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved spectacles.

NEW DISCOVERY FOR DEAFNESS.

The Sound Concentrator is an extraordinary, powerful newly invented small instrument, for the cure of extreme cases of deafness, entirely different in make or construction from all others, surpassing everything of the kind that has been or ever can be produced. They are not inserted to the cavity of the ear, and may be within without projecting, and being of the same color of the skin are not perceptible. The powers of this valuable invention are so great as to restore defective hearing of long standing to its perfect and natural state, and to enable deaf persons to join in general conversation, to hear most distinctly at a place of worship, at the bar or any public assembly; the unpleasant sensation of ringing noises in the ear is entirely removed, and the concentration afforded to individuals afflicted with this dreadful malady, all the assistance that can possibly be desired.

Chicago, Ill., Dec. 21, 1852.

I have examined Mr. G. Solomon's Glasses, and believe them to be constructed upon correct principles, and well suited for all such as have or value to use them.

J. [illegible], M. D., [illegible] Rush Medical College.

Chicago, Ill., Dec. 21, 1852.

I hereby certify that I am now wearing a pair of Mr. Solomon's Glasses, and find them to answer a better purpose for near-sightedness than any I have ever used.

J. W. [illegible], M. D.

Cleveland, Oct. 27th, 1852.

It affords me pleasure to state that a trial of several specimens of spectacles, placed in my hands by Mr. Solomons, I find myself much relieved from a defect of vision and especially weakness of the eyes, from which I have suffered for the past two years, whenever I have exercised them, even for a short period of time. I think they are of an excellent quality, and peculiarly adapted for such purposes.

J. P. K[illegible], M. D.
Professor of Physical Diagnosis, and Theory and Practice of Medicine, Medical Dep. W. R. College.

Rochester, January 15, '53.

The best recommendation that I can give the Glasses of Mr. Solomons, is that I use them myself and prefer them.

James W[illegible], M. D.
Professor of Anatomy, University of Buffalo.

New York, June 6th, 1850.

Having made a trial of Mr. Solomons' Patent Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am acquainted and accordingly can most cheerfully recommend them to all who need artificial aid in improving their vision.

Chas. A. Lee, M. D.
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College.

Philadelphia, June 4th, 1850.

I cordially concur, so far as my judgment goes, in the opinion of my valued associate, Dr. Lee, in reference to the perfection of Mr. Solomons' Lenses and eye glasses, for the sightless. The trading appears to be good and clean, and the general workmanship superior.

James [illegible], M. D.
Professor of Surgery, [illegible] College.

Columbus, February 9, 1853.

Having examined the spectacles of Mr. Solomons, I am fully satisfied that they are of a superior quality. I have taken a pair for my own use, and I find them admirably so, to the eye.

T. I. [illegible]
Professor of Surgery, Starling Med. College.

I have examined G. Solomon's Glasses and am highly pleased with them, and think the principle of a superior than the best that I have seen, and can recommend them.

Milwaukee June 20th, 1855.

RHODES' FEVER AND AGUE CURE,

[illegible]ble Specific.

[illegible] Intermittent and Remittent Fever, Ague, Chills and Fever, [illegible] sweats, and all other [illegible] common origin in Malaria [illegible] atmospheric poison which is [illegible] unavoidably inhaled at every breath, is [illegible] wherever it exists.—North, South, [illegible] West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the [illegible] ever made.

This specific is so harmless that it may be taken by persons of every age, sex, or condition, and it will not substitute for one disease others still worse, as is too often the case in the treatment by Quinine, Mercury, Arsenic, and many poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families using it as a preventive. Farmers and all laboring men by adopting it as a preventive will be free from Ague or Bilious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade; Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

The smoothness of the work which gives this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the single width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market at twenty-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Valuable Invention!

IMPORTANT TESTIMONY IN ITS FAVOR.

FLOUR INSPECTOR'S OFFICE, }
Philadelphia, April 23d, 1855. }

Messrs. Edwin and James M. Clark—Gentlemen—Having carefully examined the construction, operation, and workmanship of your newly patented Combined Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigations:

[illegible]

[illegible], truly, [illegible]
[illegible] Inspector of Philadelphia.

[illegible]

The prices which the Patentees ask for County and State rights, justify the most timid in purchasing, and within the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold. The Patentees, Edwin and James M. Clark, intend remaining in this city for some time, for the purpose of selling the entire United States. County and State rights for sale.

Persons writing for information, must enclose Stamp to pay return postage. [illegible]

Having enlarged our stock of horses and Carriages, we are now prepared to furnish our customers with Single and Double Teams (the best in the city,) with or without Drivers; also, Saddle Horses, for Ladies and Gentlemen. Horses kept by the day, week or month. Also, Carriages for sale, recently manufactured, from the best manufacturers of Troy, N. Y.

Having for the last five years received a liberal patronage from the citizens of Milwaukee and vicinity, we would kindly thank them for the past, hoping to merit a continuance of the same.
[illegible] [illegible] BUTLER,
[illegible] BOWER.

Church Bells.

CHURCH, FACTORY, STEAMBOAT AND Locomotive Bells constantly on hand, and Peals or Chimes of Bells of any number cast to order. Improved cast iron yokes, with movable arms, are attached to these bells, so that they may be adjusted to ring easily and properly, and springs also, which prevent the clapper from resting on the bell, thereby prolonging its sound. Hangings complete (including yoke, frame and wheel) furnished if desired.

An experience of thirty years in this business by their late father, enabled him to ascertain the best form for bells, the combination of metals, the degree of heat requisite for securing in them the greatest solidity, strength, and most melodious tones, which improvements, together with his very extensive assortment of patterns, are now held by the subscribers, who have grown up in the business, and who will use every endeavor to sustain the reputation which the establishment has heretofore enjoyed, both in this and foreign countries, the bells which have repeatedly received the highest awards of the New York State Agricultural Society and American Institute, and at which were completed chimes and heavy church bells for different parts of the Union and Canada.

MATHEMATICAL INSTRUMENTS will also be manufactured by the subscribers, of which they keep constantly on hand an assortment of transit instruments, levels, surveyors' compasses, improved compasses for taking horizontal and vertical angles without the needle.

All communications promptly attended to.
ANDREW MENEELY'S SONS.
West Troy, Albany Co., N. Y. 1855.

The subscribers are Agents for the sale of the Bells and Instruments made by the above concern, and will supply them at the manufacturers' prices, with the addition of expenses to this city.

RHODES' FEVER AND AGUE CURE,

[illegible] ble Specific.

[illegible] of Intermittent and Remittent Ague, Chills and Fever, [illegible] sweats, and [illegible] common origin in Malaria [illegible] atmospheric poison which is unavoidably inhaled at every breath, [illegible] wherever it exists,—North, South, [illegible] and will everywhere yield to this newly [illegible] which is claimed to be the [illegible]

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute one disease where it relieves, as is the case with the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or kindred disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative, will be free from Ague or Bilious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the single width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market at seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

MISCELLANEOUS.

Valuable Invention!

IMPORTANT TESTIMONY IN ITS FAVOR.

[illegible] INSPECTOR'S OFFICE,
Philadelphia, April [illegible], 1855.

MESSRS. EDWIN AND JAMES M. CLARK—Gentlemen—Having carefully examined the construction, operation, and workmanship of your newly patented Combined Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation:

With the French Burr Mill Stone thirty inches diameter, it ground and bolted from nine to twelve bushels of wheat per hour, making three grades, and at the same time turning out as a single operation, fine flour, superfine flour, middlings, ship stuff and bran. The flour and superfine flour is of an excellent quality, and the yield per bushel is equal to the large-sized compli[illegible] mills of modern construction. It occupies but little room, can be placed in a compass of [illegible] feet in length, by 4 feet width, when in running order, and the machinery complete can be easily removed or transported from one place to another—has no complicated machinery and is consequently less liable to get out of order, and takes but little power, and appears to be particularly adapted to the wants of the condition of the country at large; and from its cheapness of construction, and small amount of capital requisite to erect it, capacity of grinding per hour taken into consideration, with its portability and adaptation to any power a[illegible], I cannot but think that ere long it will be successfully established in every State in the Union, if it does not entirely take the place of the old complicated machinery hereinbefore used.
Yours, truly, STEPHEN MILLER.
Flour Inspector of Philadelphia.

This valuable Mill can be seen in operation daily, at No. [illegible] Arch street, next to the Theatre, Philadelphia, from ten o'clock in the forenoon, until twelve o'clock and from two o'clock in the afternoon, until four, by those wishing to purchase County or State rights. The patentees still have many of the most valuable Counties and States for sale and will give all satisfaction relative to it. Those desirous of engaging in this paying speculation, will do well to call and see it soon, as hundreds are doing daily.

The prices which the Patentees are selling County and State rights, justify the most timid in purchasing, and within the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold. The Patentees Edwin and James M. Clark, intend remaining in this city for some time, for the purpose of selling the entire United States. County and State rights for sale.

☞ Persons writing for information, must enclose money to pay return postage. [illegible]

Church Bells.

CHURCH, FACTORY, STEAMBOAT AND Locomotive Bells constantly on hand, and Peals or Chimes of Bells (of any number) cast to order. Improved cast-iron yokes, with movable arms, are attached to these bells, so that they may be adjusted to ring easily and properly, and springs also, which prevent the clapper from resting on the bell, thereby prolonging the sound. Hangings complete, (including yoke, frame and wheel,) furnished if desired.

An experience of thirty years in this business by their late father, enabled him to ascertain the best form for bells, the various combinations of metals, and the degree of heat requisite for securing in them the greatest solidity, strength, and most melodious tones, which improvements, together with his very extensive assortment of patterns, are now held by the subscribers, who have grown up in the business, and who will use every endeavor to sustain the reputation which the establishment has heretofore enjoyed, both in this and foreign countries, the bells which have repeatedly received the highest awards of the New York State Agricultural Society and American Institute, and at which were competed [illegible] and [illegible] silver medals for different parts of the Union and Canada.

MATHEMATICAL INSTRUMENTS will still be manufactured by the subscribers, of which they have constantly on hand an assortment of transit instruments, levels, surveyors' compasses, improved compasses for taking horizontal and vertical angles without the needle.

All communications promptly attended to.

MISCELLANEOUS

PROCLAMATION

To the Sick.

BRING hither "the poor, the halt, the lame and the blind." If you would have them healed of their infirmities. We boldly and fearlessly assert the Mustang Liniment will positively cure Rheumatism. Let any one who is afflicted with that most painful one apply it thoroughly according to directions, and if it does not cure it we will give them their money back. What more can we say? It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, Sprains, Eruptions fade away as if touched with the magician's wand. Its application to Burns and Scalds is equally as wonderful. The tempest of pain is in a moment stilled, and the patient relieved of his painful sufferings. "There is a balm for every wound," and that balm is the Mustang Liniment. Every druggist who sells medicine keeps it for sale. "Will ye all be healed?" if so, be supplied, guided or apprised, use the Mustang Liniment. In a word it is

A BALM FOR EVERY WOUND, A CURE FOR Rheumatism, Back-Head, Gout, Neuralgia, Old Stiff Joints, Lumbago, Sore Nipples, Bruises, Sore Skins, Cuts, Salt Rheum, Itch, Chafes, Tumor, Swellings, Piles, Ulcers, Spavin, Ringbone, Sweeny, Poll Evil, Scratches, [illegible] Lumps or Tumors, and all

Pains or Inflammation in Man or Beast.

RELIABLE EVIDENCE

[illegible], January [illegible], 1855.

Messrs. A. G. Bragg & Co.,

Dear Sirs, Allow me to add my testimony to the excellent properties of your Mustang Liniment. In all cases of scrofula or scalds. I had a son badly burned on his face and hands by powder. It was supposed he would be badly scarred for life. We applied the Mustang in raw cotton, and no thing else, and in ten days it was entirely well and left no scars, or mark whatever. My wife used it in a case of scald in our family, but in all and it had the same good effect.
Yours, truly, D. B. MILLER, County Judge.

[illegible] County, Ala., Feb [illegible], 1855.

For the benefit of the afflicted, I feel it my duty to make publicly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. [illegible] a bone [illegible] on her finger. The inflammation had been so severe, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised trying the Mustang Liniment a few days, till she could be brought to a composure in Columbus, so it could be done. To the amazement of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned; the skin was entirely taken off from the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief; but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation.
JAMES [illegible] HILL.

[illegible]—It is now [illegible] years since the Mustang Liniment has been introduced, and [illegible] more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as sprains, spains, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. There are thousands of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and we never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary, [illegible] to remind the people of these facts, to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICE.—It is put up in bottles [illegible], and retailed at 25 cents, 50 cents, and $1 per bottle. The only true and one dollar bottles contain three times as much as the twenty-five cent size in proportion to their cost. The large bottles are the cheapest.

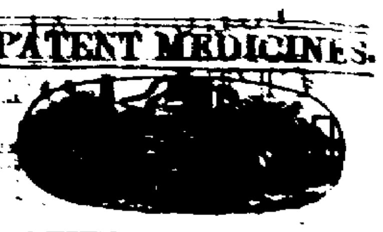
PATENT MEDICINES.



AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention:

Doct. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to Great Britain.

JOHN B. FITZPATRICK, Catholic Bishop of Boston.

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Evening Despatch.

[illegible]

We succeeded in getting up the following only in regard to the Buffalo market:

"Easier for flour—500 bbls [illegible] of wheat—16,000 bush. corn at 75c—[illegible]"

Clerks to be Dismissed at Washington.

New York, Thursday, June 28.

Dispatches from Washington inform that about thirty department clerks are to be dismissed on the 1st of July—some for Know-Nothingism and others for intemperance. Seven new hands were added to the Pension Office yesterday.

Gov. Clark is in this city to-day. He visited the various charitable institutions.

K. N. Convention at Boston.

Boston, Thursday, June 28.

The K. N. State Council meets at one o'clock to-day. A large number of delegates are in attendance. A preliminary meeting was held last night which was attended by 100 persons, including Senator Wilson, Gov. Gardner, N. P. Banks, Anson Burlingame and several other members of Congress. An address was submitted which puts the party on the platform of the restoration of the Missouri Compromise, still calling it the American party, and calling for a mass convention to be held at some central place. Some are in favor of calling the party American Republicans. One or two dissented from the doctrines of the address, but there is no doubt its sentiments will be adopted by the council. There is some opposition to throwing off the secrecy of the party machinery. Many of the leading politicians of the party in the state are now here.

Greeley's Case not yet Settled.

New York, Thursday, June 28.

The Parish correspondent of the Commercial Advertiser says the case against Horace Greeley had not been finally settled, to allow time for obtaining evidence from New York.

Geo. W. Strong, an eminent member of the legal profession in this city, died last night, aged 74 years.

Earthquake at Baltimore.

Baltimore, June 28.

A great shock, supposed to be an earthquake, was experienced here about 1 this A. M. It aroused about one half of the inhabitants of the city. Many rushed into the streets. In the eastern section some windows were broken.

The shock was also experienced in the country about 7 miles from the city. It was succeeded by a rumbling noise.

We have Texas dates to the 19th inst. A general rise in all the rivers in Texas is reported, and cotton is coming forward rapidly.

The New Senators of New Hampshire Speaking.

Concord, Thursday, June 28.

At the meeting of last night the speech of Senator Bell was strongly Whig and Anti-Nebraska in tone, and advocates an attempt to restore the Missouri Compromise. Mr. Bell's friends consider his speech conservative, but the Democrats hold it as identical with Free-soilism.

Mr. Hale's speech was characteristic, and of course stronger for freesoil. The meeting was large and enthusiastic.

A very stringent liquor bill has been acted on by the House Committee.

A grand Temperance Convention assembles here to-day.

ADDITIONAL BY THE BALTIC.

Accounts from Varna mention the rumor that propositions for an expedition against Perekop were being made.

Prince Gortschakoff telegraphs to St. Petersburgh on the afternoon of June 8th, that: [illegible]

The British Admiralty make public the following:

Capt Lyons of the Miranda and Capt. [illegible] report that the naval expedition against Taganrog, Mariopolis and Gheisk, which took place on the 3d 5th and 6th of June have been perfectly successful. The public buildings among which are government magazines of provisions were burned. The operations were executed with vigor and rapidity, the Allies having only one man wounded, although opposed by 350 soldiers at Taganrog.

An extensive boat expedition is being fitted out at Portsmouth for service in the shallow waters of the Sea of Azof.

Miss Nightingale is on her way to England. She is convalescent from the attack of fever, but was recommended to recruit her strength at home for a season.

June 8.—The English fleet, consisting of 14 line-of-battle ships, including three French, was anchored at Cronstadt and [illegible] from shore to shore. Admiral Dundas had got in very close with the surveying steamer, and afterwards with a boat, but was not molested by the Russians.

Admiral Bruyeres anchored in the great bay on the 12th inst.

Mr. Fillmore was presented to Queen Victoria by the Earl of Clarendon at an audience and subsequently to the Royal drawing room. Mr. Buchanan and Mr. Fillmore dined with the Queen.

JUNE 29th.

THE GREAT LAND SALE WHICH TOOK PLACE this day, exceeded the expectation of all. The sale commenced at 10 o'clock A. M., and continued after an adjournment until 5 P. M., a large portion of the property was not offered, the owners preferring to pay all expenses and withdraw the same. The property that was sold principally was in the Second Ward, and the said property would sell to day for fifty per cent. more. This great sale is adjourned until the 27th day of July next, at which time a new arrangement will be entered into. Notice will be given of the property to be sold each day, so that there will be no conflicting of the different Wards hereafter. I expect to be absent some twenty days shooting Squirrels and hunting Ducks, but all arrangements will be made so that all who have any business with my small concern can have it attended to as if I were at home. I find it necessary for my general health and for the general good of our city, to leave for the country a few weeks. I expect, when I return, to have a vessel from the south who will be ready to invest large amounts of property in our city, and also in the county. All who have property to sell and it in time, so that it can be entered in next Catalogue. The Catalogue will be made up by the 20th of July, at which time I will be home.

Clerks to be Dismissed at Washington.

New York, Thursday, June 28.

Dispatches from Washington affirm that about thirty department clerks are to be dismissed on the 1st of July—some for Know-Nothingism and others for intemperance. Seven new hands were added to the Pension Office yesterday.

Gov. Clark is in this city to-day. He visited the various charitable institutions.

K. N. Convention at Boston.

Boston, Thursday, June 28.

The K. N. State Council meets at one o'clock to-day. A large number of delegates are in attendance. A preliminary meeting was held last night which was attended by 100 persons, including Senator Wilson, Gov. Gardner, N. P. Banks, Anson Burlingame and several other members of Congress. An address was submitted which puts the party on the platform of the restoration of the Missouri Compromise, still calling it the American party, and calling for a mass convention to be held at some central place. Some are in favor of calling the party American Republicans. One or two dissented from the doctrines of the address, but there is no doubt its sentiments will be adopted by the council. There is some opposition to throwing off the secrecy of the party machinery. Many of the leading politicians of the party in the state are now here.

Greeley's Case not yet Settled.

New York, Thursday, June 28.

The Parish correspondent of the Commercial Advertiser says the case against Horace Greeley had not been finally settled, to allow time for obtaining evidence from New York.

Geo. W. Strong, an eminent member of the legal profession in this city, died last night, aged 74 years.

Earthquake at Baltimore.

Baltimore, June 28.

A great shock, supposed to be an earthquake, was experienced here about 1 this A. M. It aroused about one half of the inhabitants of the city. Many rushed into the streets. In the eastern section some windows were broken.

The shock was also experienced in the country about 7 miles from the city. It was succeeded by a rumbling noise.

We have Texas dates to the 19th inst. A general rise in all the rivers in Texas is reported, and cotton is coming forward rapidly.

The New Senators of New Hampshire Speaking.

Concord, Thursday, June 28.

At the meeting of last night the speech of Senator Bell was strongly Whig and Anti-Nebraska in tone, and advocated an attempt to restore the Missouri Compromise. Mr. Bell's friends consider his speech conservative, but the Democrats hold it as identical with Freesoilism.

Mr. Hale's speech was characteristic, and of course stronger for freesoil. The meeting was large and enthusiastic.

A very stringent liquor bill has been acted on by the House Committee.

A grand Temperance Convention assembles here to-day.

ADDITIONAL BY THE BALTIC.

Accounts from Varna mention the rumor that propositions for an expedition against Perekop were being made.

Prince Gortschakoff telegraphs to St Petersburgh on the afternoon of June 5th, that:

The British Admiralty make public the following:

Capt Lyons of the Miranda and Capt. Lyddon report that the naval operations against Taganrog, Mariopolis and Gheisk, which took place on the 3d 5th and 6th of June have been perfectly successful. The public buildings, among which are government magazines of provisions were burned. The operations were conducted with vigor and rapidity, the Allies having only one man been wounded, although opposed by 350 soldiers at Taganrog.

An extensive boat expedition is being fitted out at Portsmouth for service in the shallow waters of the Sea of Azof.

Miss Nightingale is on her way to England. She is convalescent from the attack of fever, but was recommended to recruit her strength at home for a season.

June 5.—The English fleet, consisting of 18 line-of-battle ships, including three French, was anchored at Cronstadt, and forming a line across from shore to shore. Admiral Dundas had got in very close with the surveying steamer, and afterwards with a boat, but was not molested by the Russians.

Admiral Baynes anchored in the great bay on the 13th inst.

Mr. Fillmore was presented to Queen Victoria by the Earl of Clarendon, at an audience and subsequently in the Royal drawing room. Mr. Buchanan and Mr. Fillmore dined with the Queen.

The first meeting of the Administrative Reform Association, a new organization on the plan of the anti-corn law league was held in Drury Lane Theatre on the 13th. Quite a large number of members of Parliament, spoke.—Some rails being made for Sir Charles Napier, that officer proceeded himself and was heartily received.

RHODES' FEVER AND AGUE CURE,

[illegible]ble Specific.

[illegible] of Intermittent and Remittent Fevers, Ague, Chills and Fever, [illegible] sweats, and all other [illegible] common origin in Malaria, [illegible] atmospheric poison which at [illegible] unavoidably inhaled at every breath, is [illegible] character wherever it exists,—North, South, [East,] West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have ANOTHER CHILL, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families in all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application and the article will be consigned on liberal terms to responsible parties in every section of the country.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of six cutting, and the flexibility of the shingle width wise removes the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

MESSRS. EDWIN AND JAMES M. CLARK.—Gentlemen—Having carefully examined the construction, operation, and workmanship of your newly patented Combined Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation.

With the French Burr Mill Stone [illegible] inches diameter, it ground and bolted from nine to [illegible] bushels of wheat per hour, making clean work, and at the same time turning out at a single operation, [illegible] floor, superfine flour, shorts, ship stuff and bran. The extra and superfine flour is of an excellent quality, and the yield per bushel is equal to the large, first class mills of modern construction. It occupies but little room, can be placed in a compass of 21 feet in length, by 4 feet width, when in running order, with all the machinery requisite, can be easily removed or transported from one place to another—it is so compact [illegible] about it, consequently is not liable to get out of order, and it has but little power and appears to be particularly adapted to the wants of the condition of the country at large, and from its cheapness of construction, and small amount of capital requisite to start it, rapidity of grinding per hour, taken into consideration, with its portability and adaptation to any power now in use, I cannot [think but] that ere long it will be successfully established in every State in the Union, if it does not entirely take the place of the old complicated machinery heretofore used.

Yours, truly, STEPHEN MILLER, Head Flour Inspector of Philadelphia.

This valuable Mill can be seen in operation daily, at No. 213 Arch street, next to the Theatre, Philadelphia, from ten o'clock in the forenoon, until twelve o'clock, and from two o'clock in the afternoon, until four. By those wishing to purchase County or State rights. The patentees still have many of the most valuable States and Counties for sale, and will give all satisfaction relative to it. Those desirous of engaging in this profitable speculation, will do well to call and see it soon, as hundreds are doing daily.

The prices which the Patentees are selling County and States at, justify the most timid in purchasing, and within the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold. The Patentees Edwin and James M. Clark, intend remaining in this city for some time, for the purpose of selling the entire United States, County and States for sale.

Church Bells.

CHURCH, FACTORY, STEAMBOAT AND Locomotive Bells constantly on hand and *Peals* or *Chimes* of Bells (of any number) cast to order. Improved cast iron yokes with movable arms are attached to these bells, so that they may be adjusted to ring easily and properly, and springs also, which prevent the clapper from resting on the bell, thereby prolonging its sound. Hangings complete, (including yoke frame and wheel) furnished if desired.

An experience of thirty years in this business by their late father, enabled him to ascertain the best form for bells, the combination of metals, the degree of heat requisite for securing in them the greatest solidity, strength and most melodious tones, which improvements together with his very extensive assortment of patterns are now held by the subscribers, who have grown up in the business, and who will use every endeavor to sustain the reputation which the establishment has heretofore enjoyed both in this and foreign countries. The bells which have repeatedly received the highest awards of the New York State Agricultural Society and American Institute and at which were completed chimes and heavy alarm bells for different parts of the Union and Canada.

MATHEMATICAL INSTRUMENTS will still be manufactured by the subscribers, of which they have on hand an assortment of transit instruments, levels, surveyors compasses, improved compasses for taking horizontal and vertical angles without the needle.

MISCELLANEOUS

PROCLAMATION To the Sick

BRING hither "the poor, the halt, the lame and the blind," if you would have them healed of their many infirmities. We boldly and fearlessly assert that the Mustang Liniment will positively cure all ailments. Let any one who is afflicted with that most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say. It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, sprains, sores, Eruptions fade away as if touched with the magician's wand. Its application to Burns crush them like "oil upon troubled waters." The tempest of pain and agony is soon stilled, and the patient is hushed to quiet and peaceful slumbers. "There is a balm for every wound," and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. "Mr. Anyone horses, and if they are crippled, galled or sprained, use the Mustang Liniment." In a word it is

A BALM FOR EVERY WOUND, A CURE FOR Rheumatism, Scald-Head, Gout, Neuralgia, Caked Breast, Stiff Joints, Lumbago, Sore Nipples, Bruises, Sciatica, Sore Shins, Cuts, Salt Rheum, Burns, Chafes, Tetter, Scalds, Galls, Piles, Ulcers, Spavin, Splint, Ring-Bone, Sweeny, Poll Evil, Scratches, sores, Hard Lumps or Tumors, and for all kinds of

Pains or Inflammation in Man or Beast

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1854.

Messrs. A. G. BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge.

RUSSELL COUNTY, Ala., Feb. 1, 1854.

For the benefit of the afflicted, I feel it my duty to state publickly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm, and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILIPS.

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts and all manner of sores, as well as piles, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts, to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes, and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts, whose high Professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

JOHN B. FITZPATRICK, Catholic Bishop of Boston, so

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford—They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to ensure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

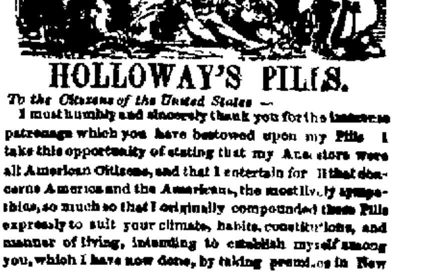
THE AMEICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States.—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.

THOMAS HOLLOWAY,
38, Corner of Ann and Nassau Streets, New York.

THE BLOOD, LIVER AND BILIOUS COMPLAINTS.

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps the most handsome in the World, at a certain period, lose their teeth and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the soundest health.

These celebrated Pills are wonderfully efficacious in the following complaints:—

FEVER AND AGUE CURE,

[illegible] ble Specific.

[illegible] of Intermittent and Remittent Fever, Ague, Chills and Fever, Night Sweats, and all other [illegible] common origin in Miasma [illegible] atmospheric poison which [illegible] unavoidably inhaled at every breath, in [illegible] character wherever it exists,—North, South, East, West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have ANOTHER CHILL, by continuing its use according to directions

It will immediately relieve all distressing results of Billious or Ague diseases such as general debility, night sweats, &c The patient at once begins to recover his appetite and strength, and continues until a permanent and radical cure is effected

Finally, its use will banish Fever and Ague from families and all classes Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them

One or two bottles will answer for ordinary cases, some may require more

Directions printed in German, French and Spanish, accompany each bottle

Price One Dollar Liberal discounts made to the trade

Trade circulars forwarded on application and the article will be consigned on liberal terms to responsible parties in every section of the country

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood

The ease with which wood is worked in that direction gives it speed of execution and the flexibility of the shingle width removes the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles

This mill is made entirely of iron—strong, simple and of the best workmanship easily worked, and not liable to get out of order

FLOUR INSPECTOR OFFICE, }
Philadelphia April 4th, 1855 }

MESSRS EDWIN AND JAMES M CLARK—Gentlemen—Having carefully examined the construction, operation, and workmanship of your newly patented Combined Grinding and Bolting [illegible] Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement of my investigation

With the French Burr Mill stone of [illegible] inches diameter, it ground and bolted from [illegible] bushels of wheat per hour, making clean work and at the same time turning out [illegible] Superfine flour, shorts, ship stuff and bran The extra and superfine flour is of an excellent quality [illegible] per bushel is equal to the large class of [illegible] mills of modern construction It occupies but [illegible] room, can be placed in a compass of [illegible] feet in length by 4 feet width, when in running order, [illegible] can be easily removed or transported from one place to another—it is [illegible] complicated machinery [illegible] quantity is not liable to get out of [illegible] but little power and appears to be particularly adapted to the wants of the condition of the country [illegible] from its cheapness of construction [illegible] small amount of capital requisite to start it [illegible] of grinding per hour, taken into consideration, with its portability and adaptation to any power now in use, I cannot but think that ere long it will be [illegible] in every State in the Union, if it does not entirely take the place of the old complicated machinery heretofore used

Yours, truly STEPHEN MILLER
Head Flour Inspector of Philadelphia

This valuable Mill can be seen in operation daily, at No 213 Arch street, next to the Theatre Philadelphia from ten o'clock in the forenoon until twelve o'clock, and from two o'clock in the afternoon, until four by those wishing to purchase county or State rights The patentees still have many of the most valuable States and Counties for sale and will give all satisfaction [illegible] Those desirous of engaging in this profitable speculation, will do well to call and see it soon, as hundreds are doing daily

The prices which the Patentees are selling County and States at, justify the most timid in purchasing, and within the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold The Patentees Edwin and James M Clark, intend remaining in this city for some time, for the purpose of selling the entire United States County and States for sale

PROCLAMATION

To the Sick

BRING hither "the poor, the halt, the lame and the blind," if you would have them healed of their many troubles We boldly and fearlessly assert that the Mustang Liniment will positively cure all such [illegible] Let any one who is afflicted with that most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back What more can we say It will also cure the Piles Thousands have tried it—and all were cured Bruises, sprains, sores, Eruptions fade away as if touched with the magician's wand. Its application to Burns [illegible] The trumpet of pain and agony is soon stilled, and the patient is put to quiet and peaceful slumbers "There is a balm for every wound" and that balm is the Mustang Liniment Everybody that sells medicine keeps it for sale [illegible] your horses, and if they are crippled, galled or sprained, use the Mustang Liniment In a word it is

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1854.
Messrs A G BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment in all cases of burns or scalds I had a son badly burned on his face and hands by powder It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days it was entirely well and left no scar, or mark whatever My wife used it in a case of scald from boiling hot tallow and it had the same good effect

Yours, truly, D B MILLER, County Judge

ROSSEAU COUNTY, A a, Feb 1, 1854

For the benefit of the afflicted, I feel it my duty to state publickly the remarkable cures that have been effected in my family by the use of the Mustang Liniment A negress of mine had what is called a Bone Felon, or Whitlow on her finger The Inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm, and might prevent mortification To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed The finger is perfectly well and sound One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed I consider it an invaluable remedy, and it should be in every family and on every plantation JAMES PHILIPS

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts and all manner of sores as well as piles, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, any other remedy These are facts that millions of persons know from having used it We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used and never heard a complaint against it, where it has been used as directed and used thoroughly We deem it necessary occasionally to remind the people of these facts, to induce those to try it who may never have had an occasion to use it One trial is all we ask the most incredulous—and such a trial will only cost 25 cents

PRICES —It is put up in bottles of all sizes, and retailed at 25 cents, 50 cents, and $1 per bottle The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c, &c Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used No person can feel well while a costive habit of body prevails besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billious derangements They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land Hence a reliable family physic is of the first importance to the public health and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct A A HAYES Analytical Chemist of Boston and State Assayer of Massachusetts whose high Professional character is endorsed by the—
Hon EDWARD EVERETT, Senator of the United States
ROBERT C WINTHROP, Ex-Speaker of the House of Representatives
ABBOTT LAWRENCE Minister Plen to England
JOHN B FITZPATRICK, Catholic Bishop of Boston so
Dr J R CHILTON, Practical Chemist of New York City, endorsed by
Hon W L MARCY, Secretary of State
WM B ASTOR, the richest man in America
S LELAND & Co, Proprietors of the Metropolitan Hotel, and others

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford — They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to ensure the best results This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process The reason is perfectly obvious While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind the curative virtues only being retained Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world

As it is frequently expedient that my medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mysteries I have no mysteries

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach bowels, liver, and health, and by correcting, wherever they exist such derangements as are the first origin of disease.

To the Citizens of the United States —

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.
